# **Fisheries Management Act 1994 No 38**

---

An Act relating to the management of fishery resources.

---

---

## Part 1 Preliminary

### 1 Name of Act

This Act may be cited as the *Fisheries Management Act 1994*.

### 2 Commencement

This Act commences on a day or days to be appointed by proclamation.

### 3 Objects of Act

- (1) The objects of this Act are to conserve, develop and share the fishery resources of the State for the benefit of present and future generations.
- (2) In particular, the objects of this Act include:
  - (a) to conserve fish stocks and key fish habitats, and
  - (b) to conserve threatened species, populations and ecological communities of fish and marine vegetation, and
  - (c) to promote ecologically sustainable development, including the conservation of biological diversity,and, consistently with those objects:
  - (d) to promote viable commercial fishing and aquaculture industries, and
  - (e) to promote quality recreational fishing opportunities, and
  - (f) to appropriately share fisheries resources between the users of those resources, and
  - (g) to provide social and economic benefits for the wider community of New South Wales, and
  - (h) to recognise the spiritual, social and customary significance to Aboriginal persons of fisheries resources and to protect, and promote the continuation of, Aboriginal cultural fishing.

**Note.** At common law, the public has a right to fish in the sea, the arms of the sea and in the tidal reaches of all rivers and estuaries. The public has no common law right to fish in non-tidal waters—the right to fish in those waters belongs to the owner of the soil under those waters. However, the public may fish in non-tidal waters if the soil under those waters is Crown land. In the case of non-tidal waters in rivers and creeks, section 38 declares that the public has a right to fish despite the private ownership of the bed of the river or creek. However, the right to fish in tidal or non-tidal waters is subject to any restriction imposed by this Act.

## Part 1A Fishery management strategies

### 7A Definitions

In this Part:

**designated fishing activity** means a fishing activity described in Schedule 1A.

**EPA Act** means the *Environmental Planning and Assessment Act 1979*.

**fishing activity** includes any activity that may be the subject of environmental assessment under Division 5 of Part 5 of the EPA Act.

**fishing regulatory controls** has the same meaning it has in Division 5 of Part 5 of the EPA Act.

### 7B Declaration of designated fishing activities

- (1) Schedule 1A describes designated fishing activities for the purposes of this Part.
- (2) The Governor may, by proclamation published on the NSW legislation website on the recommendation of the Minister, amend Schedule 1A by inserting, omitting or amending the description of a fishing activity.
- (3) The regulations may make provisions of a savings or transitional nature consequent on the amendment of Schedule 1A.

### 7C Fishery management strategy for designated activities

- (1) The Minister is to arrange for the preparation of a draft fishery management strategy for each designated fishing activity.
- (2) The Minister may, from time to time, revise the existing strategy for an activity or arrange for the preparation of a new draft strategy for the activity (whether or not a review of the existing strategy is required because performance indicators are not being met).
- (2A) An existing strategy may be revised by including provisions in a subsequent strategy (whether or not relating to the same activity) that are expressed to amend, replace or otherwise revise the provisions of the existing strategy.
- (2B) The Minister may set priorities, or revise priorities, for the implementation of any action contemplated by an existing strategy, in particular, for the purpose of co-ordinating the implementation of actions that are common to 2 or more strategies.
- (3) (Repealed)
- (4) A draft fishery management strategy becomes the existing fishery management strategy when it is approved by the Minister. However, the first fishery management strategy to be approved in respect of a

designated fishing activity must be approved in accordance with section 7F.

**7D Purpose of fishery management strategy**

- (1) A fishery management strategy is the strategy for achieving the objectives of this Act with respect to the designated fishing activity for which it is prepared. The draft strategy is the basis for environmental assessment under Division 5 of Part 5 of the EPA Act of that activity.
- (2) A draft strategy is to be prepared (in accordance with guidelines agreed between the Minister administering this Act and the Minister administering the EPA Act) so as to enable:
  - (a) an environmental assessment consistent with the principles on which assessments of activities are undertaken under Part 5 of the EPA Act, and
  - (b) the cumulative environmental impact of fisheries approvals under this Act to be assessed.

**Note.** Division 5 of Part 5 of the EPA Act makes special provision for the environmental assessment of designated fishing activities. Section 115I of that Act requires the preparation of a draft fishery management strategy for any fishing activity that is subject to environmental assessment under that Division. The draft strategy is subject to public consultation in conjunction with the environmental impact statement for the assessment.

**7E Content of fishery management strategy**

A fishery management strategy is to:

- (a) describe the designated fishing activity for which it is prepared, and
- (b) incorporate any management plan or draft management plan for the fishery concerned, and
- (c) outline the fishing regulatory controls or proposed fishing regulatory controls applicable to the designated fishing activity, and
- (d) outline the likely interaction of the designated fishing activity with other fishing activities, and
- (e) include performance indicators to monitor whether the objectives of the strategy (and the management plan) and ecologically sustainable development are being attained, and
- (f) describe how the designated fishing activity is to be monitored, and
- (g) specify at what point a review of the strategy is required when a performance indicator is not being satisfied.

---

**Note.** See section 57 for content of a management plan for a share management fishery.

**7F Revision of draft strategy and publication of approved strategy following environmental assessment**

- (1) Following a determination under Division 5 of Part 5 of the EPA Act, the Minister is to revise the draft fishery management strategy for the designated fishing activity concerned and make any amendment that is necessary to reflect the result of the determination.
- (2) (Repealed)
- (3) The Minister is to publish the approved strategy (as so revised) in connection with the publication of the determination under Division 5 of Part 5 of the EPA Act.

**7G Management plan not to be made until completion of environmental assessment**

- (1) Until a determination is made under Division 5 of Part 5 of the EPA Act with respect to a designated fishing activity, the first management plan for the fishery concerned cannot be made.
- (2) If the management plan for a share management fishery has not been made within the time required by section 42 (3), the Minister is not required to recommend that the description of the fishery be omitted from Schedule 1 if the Management Advisory Committee for the fishery approves of the retention of the fishery as a share management fishery.

---

- 
- (2) The TAC Committee is required to determine a specified total allowable catch for a share management fishery if the management plan for the fishery so requires.
  - (3) The TAC Committee is required to determine any other total allowable catch if (and only if) required to do so by the Minister.
  - (4) The TAC Committee may also determine, in accordance with this Division, any other matter relating to fishing effort in a share management fishery if (and only if) required to do so by the Minister. This Division applies to the determination of any such matter in the same way as it applies to the determination of a total allowable catch.

**29 TAC Committee not subject to Ministerial control**

- (1) The TAC Committee is not subject to the control or direction of the Minister as to any determination to be made by it.

- (3) The Minister may require the TAC Committee to reconsider a determination.

  - (a) the need to ensure that the exploitation of fisheries resources is conducted in a manner that will conserve fish stocks in the long term, and
  - (b) the impact of fishing activities on all species of fish and the aquatic environment, and
  - (c) the precautionary principle, namely, that if there are threats of serious or irreversible damage to fish stocks, lack of full scientific certainty should not be used as a reason for postponing measures to prevent that damage.

**31 Public consultation by TAC Committee**

- (1) Before the TAC Committee determines a total allowable catch under this Division (or reviews any such determination), the TAC Committee is required to call for public submissions on the appropriate total allowable catch.

-

- (3) However, the TAC Committee may not revoke a determination that it is required to make by a management plan for a share management fishery or by the Minister, unless it is replaced by a new determination.
- (4) Despite section 31, a review of a determination of total allowable catch made by the TAC Committee (an *initial determination*) may be carried out without calling for public submissions on the appropriate total allowable catch if:
  - (a) the review is conducted, and any new or different determination of total allowable catch made as a result of the review is made, within 6 months after the initial determination was made, and
  - (b) before making the initial determination, the TAC Committee called for public submissions in relation to the appropriate total allowable catch.
- (5) Subsection (4) does not apply if the Minister directs the TAC Committee to call for public submissions in relation to a review.
- (6) If the TAC Committee conducts a review of an initial determination without calling for public submissions, the TAC Committee must, in making any decision in relation to the review, have regard to any public submissions that it was required to have regard to when it made the initial determination.

### **33 Publication and duration of determinations**

- (1) A determination of the TAC Committee of a total allowable catch is to be published in the Gazette by the Minister.
- (2) The determination takes effect on the date (on or after that publication) that is specified in the determination.
- (3) The determination has effect for the period specified in the determination or, if no such period is specified, until it is revoked by another determination.

- 
- (4) However, if the determination relates to a total allowable catch required under a management plan for a share management fishery, the determination does not cease to have effect until revoked by a new determination of that total allowable catch.

### **34 Implementation of determinations**

- (1) The Minister is required to review, in the light of any determination of the TAC Committee, the regulations and other instruments under this Act regulating the taking of fish by commercial fishers and other fishers.
- (2) If the determination relates to a total allowable catch required under the management plan for a share management fishery, the determination is to be implemented in accordance with this Act and the management plan.

## Part 3 Commercial share management fisheries

### Division 1 Overview

#### 41 Staged implementation of share management fisheries

This Part provides for the implementation of share management fisheries in the following stages:

- (a) **Stage 1 (Consultation)**  
the first stage when the Minister consults relevant industry bodies about which fisheries should become share management fisheries.
- (b) **Stage 2 (Identification of fishery and shareholders)**  
the second stage when a fishery is identified as a share management fishery by the inclusion of a description of the fishery in Schedule 1. During the second stage, an interim Management Advisory Committee for the fishery is established, the criteria for the allocation of shares in the fishery are determined, eligible persons are invited to apply for shares and shares are issued provisionally.
- (c) **Stage 3 (Access to fishery limited to shareholders)**  
the third stage when access to the fishery is limited to provisional shareholders (and also to any person claiming to be eligible to receive shares). During the third stage, appeals against the provisional issue of shares are determined and a draft management plan for the fishery is prepared.
- (d) **Stage 4 (Full implementation)**  
the fourth and final stage when the management plan for the fishery commences and the fishing, share transfer and other rights of shareholders are fully identified and exercisable and subject to review.

#### 41A Categories of share management fishery

There are 2 categories of share management fishery, as follows:

- (a) category 1 share management fisheries,
- (b) category 2 share management fisheries.

**Note.** The principal differences between category 1 and category 2 share management fisheries are as follows:

- (a) Shares in a category 1 share management fishery are issued for a 10-year period and are automatically renewed. If the share management fishery is terminated, all the shares in the fishery are cancelled and compensation is payable to the shareholders. Shareholders in the

---

fishery are liable to pay a community contribution for their right of access to the fishery.

- (b) Shares in a category 2 share management fishery are issued for a 15-year period and are renewable. If the share management fishery is terminated by the Minister, the shares expire at the end of the 15-year period for which they were issued or renewed. Compensation is payable for the termination of the fishery (by its omission from Schedule 1) before the expiry of the current term of the shares, but is not payable for a termination by the Minister after that expiry. Shareholders in the fishery are not liable for a community contribution, but must pay a rental charge for their right of access to the fishery.

## **Division 2 Declaration of share management fisheries**

### **42 Declaration of share management fisheries**

- (1) Schedule 1 specifies share management fisheries for the purposes of this Act.
- (2) The Governor may, by proclamation published on the NSW legislation website on the recommendation of the Minister, amend Schedule 1 by inserting or omitting the description of any fishery.
- (3) The Minister is required to recommend to the Governor that the description of a fishery be omitted from Schedule 1 if the management plan for the fishery has not commenced within 5 years after the description was inserted in Schedule 1.

**Note.** The first management plan for a fishery cannot be made until the completion of environmental assessment—see section 7G.

### **43 Consultation with industry**

- (1) The Minister is required to consult relevant commercial fishing industry bodies about which fisheries should become share management fisheries.
- (2) The Minister is also required to consult relevant commercial fishing industry bodies before a fishery ceases to be a share management fishery.

### **44 Omission of share management fishery**

- (1) This section has effect if the description of a share management fishery is omitted from Schedule 1, including an omission for the purpose of redefining an existing share management fishery.
- (2) When the description of the fishery is omitted, all shares in the fishery are cancelled.
- (3) If the description of the fishery is omitted after the commencement of the management plan for the fishery, the holders of the cancelled shares

---

are entitled to compensation from the State for the market value before the cancellation of the shares they held.

- (4) The amount of compensation payable is to be determined by agreement between the Minister and the person entitled to compensation. If the amount of compensation is not agreed, it is to be determined by the Valuer-General.
- (5) A person entitled to compensation may agree to accept instead shares in another share management fishery which replaces the omitted fishery wholly or partly.
- (6) A person who is dissatisfied with the amount of compensation offered to the person under this section or with any delay in the payment of compensation may appeal to the Land and Environment Court.
- (7) The regulations may make provision for or with respect to the payment of compensation in accordance with this section.
- (8) This section does not apply:
  - (a) if a description of a fishery is omitted from Part 2 of Schedule 1 after the fishery is terminated in accordance with Division 2A, or
  - (b) if a description of a fishery is omitted from Part 2 of Schedule 1 and inserted in Part 1 of Schedule 1 (that is, the fishery is converted in accordance with Division 2A).

#### **45 Redefinition of share management fishery**

- (1) This Part applies to the redefinition of an existing share management fishery by the replacement, wholly or partly, of the description of that fishery in Schedule 1, subject to any modifications of this Part prescribed by the regulations.
- (2) The regulations may, in particular, combine any of the stages of implementation of the new share management fishery.

### **Division 2A Termination and conversion of category 2 share management fisheries**

#### **45A Termination of category 2 share management fishery**

- (1) The Minister may, by order published in the Gazette, terminate a category 2 share management fishery.
- (2) The termination takes effect when the current term of the shares in the fishery expires.

**Note.** Shares in a category 2 share management fishery are issued for 15-year periods. Under section 73A, if a new management plan is not made by the end of the first 10 years of that 15-year period, and an order has not been made terminating the fishery, the shares are automatically renewed for a further 15

---

years. The effect of that provision is that shareholders must be given at least 5 years' notice of the termination of the fishery.

- (3) When the termination takes effect, the fishery is taken to cease to be a share management fishery.
- (4) The Minister is to recommend to the Governor that the description of the fishery be omitted from Schedule 1 after the termination takes effect.

#### **45B Regulations relating to terminated fisheries**

- (1) The regulations may make provision for or with respect to the regulation and management of a category 2 share management fishery that is terminated under this Division.
- (2) Without limiting subsection (1), the regulations may declare the fishery to be a restricted fishery from the date the termination takes effect.

#### **45C Conversion of category 2 share management fishery to category 1**

- (1) A category 2 share management fishery may be converted to a category 1 share management fishery.
- (2) A category 2 share management fishery is converted to a category 1 share management fishery if Schedule 1 is amended so as to omit the description of the fishery from Part 2 of Schedule 1 and insert that description of the fishery in Part 1 of Schedule 1.
- (3) A category 2 share management fishery cannot be redefined at the time of its conversion to a category 1 share management fishery, but the fishery may be redefined before or after its conversion.

#### **45D Poll of shareholders**

- (1) The Management Advisory Committee for a category 2 share management fishery may request the Minister to hold a poll of shareholders on the question of whether the fishery should be converted to a category 1 share management fishery.
- (2) Within 60 days after the request is made, the Minister is to:
  - (a) direct that the poll be taken, or
  - (b) refer the matter back to the Management Advisory Committee for reconsideration.

If the Committee confirms its request, the Minister must, within 60 days, direct that the poll be taken.

- (3) For the purposes of a poll under this section:
  - (a) shareholders are entitled to one vote irrespective of the number of shares they hold, and

- (b) 2 or more persons who hold shares jointly are entitled to only one vote, and
  - (c) a corporation that holds shares is required to nominate an individual to vote in the poll.
- (4) The conversion of the fishery is supported at a poll if the number of votes in support of the conversion constitutes a majority of the persons eligible to vote in the poll.
- (5) If the conversion of the fishery is supported at the poll, the Minister is, within 90 days, to recommend to the Governor that the appropriate amendment be made to Schedule 1 to effect the conversion.
- (6) A poll in respect of a fishery is not to be conducted under this section more than twice during the period in which the management plan for the fishery remains in force.
- (7) The regulations may make provision for or with respect to:
  - (a) the conduct of polls under this section, and
  - (b) the recovery of the costs of or in connection with a poll from shareholders in the fishery.

**45E General provisions relating to conversion**

- (1) If a category 2 share management fishery is converted to a category 1 share management fishery:
  - (a) the fishery is taken, subject to the regulations, to continue to be a category 2 share management fishery for the purposes of this Part until the commencement of the management plan for the category 1 share management fishery, and
  - (b) the management plan for the category 2 share management fishery continues in force until that commencement (subject to any amendment of that plan in accordance with this Part), and
  - (c) any entitlement to compensation under section 44 for the omission of the fishery from Schedule 1 before that commencement is to be determined on the basis that the fishery remains a category 2 share management fishery.
- (2) When the management plan for the category 1 share management fishery commences, all shares in the category 2 share management fishery are cancelled.
- (3) The regulations may make provision for or with respect to the conversion of a category 2 share management fishery to a category 1 share management fishery, including by modifying the application of this Part to the implementation of the category 1 share management fishery.

The public notice must:

- (a) describe the share management fishery, and
- (b) state that after the issue of shares in the fishery access to the fishery will be restricted to shareholders, and
- (c) set out the criteria for the allocation of shares in the fishery (giving full particulars of the method of determining the persons eligible to apply for those shares and their entitlement to shares under this Division), and
- (d) provide information on the rights and obligations relating to dealings in the shares before the commencement of the management plan for the fishery, and
- (e) invite applications for shares by eligible persons (and specify the manner and time within which applications are to be made and any application fee), and
- (f) contain such other information as is prescribed by the regulations or as the Minister considers appropriate.

**(4)    Amendment**

A public notice may be varied by a further public notice under this section.

---

**47 Application for shares**

- (1) An eligible person may apply to the Minister for the issue of shares in a share management fishery if an invitation for applications has been given by public notice under this Division.
- (2) The application is to be in writing in the form approved by the Minister and lodged with the Minister within the time specified in the public notice.
- (3) The application is to be accompanied by the application fee specified in the public notice. Any such fee is not to exceed any maximum fee prescribed by the regulations.
- (4) The Minister may require the applicant to supply additional information to support the application. The Minister may reject the application if the additional information is not supplied within the time required by the Minister.
- (5) The Minister may also obtain information from other sources in relation to the application.

**48 Provisional issue of shares to applicants**

- (1) The Minister is to consider each application for shares that has been duly made and issue shares to eligible applicants in accordance with their entitlement to shares under this Division. If the applicant is not eligible to apply for shares, the Minister is to refuse the application.
- (2) The shares are to be issued on a provisional basis pending the commencement of the management plan for the fishery.
- (3) The Minister must, as soon as practicable:
  - (a) notify each applicant of the result of the application, and
  - (b) give to each applicant a statement in writing of the names of the applicants who were provisionally issued with shares and of the number of shares issued to each such applicant, together with a statement of any rights of appeal by the applicant to the Share Appeal Panel.
- (4) Any shares issued as a result of a decision of the Share Appeal Panel are also to be issued on a provisional basis under this section.
- (5) The Minister may set aside shares available for issue to an eligible person who does not apply for the issue of the shares. The Minister may issue any such shares as the Minister sees fit, including by their issue to other applicants or by their sale by auction, tender or ballot.

---

**49 Who may hold shares**

- (1) The persons eligible to hold shares are not limited to the holders of commercial fishing licences or natural persons.
- (2) However, the regulations may prohibit a class of persons from holding shares. For example, the regulations may prohibit persons from holding shares if they have a record of offences against this Act or if they are individuals not resident in Australia or they are companies in which any such individuals have a controlling interest.
- (3) Two or more persons may jointly hold the same share.
- (4) This section does not affect any disqualification from holding shares under this Act.

**50 Method of determining eligibility and entitlement to shares**

- (1) The determination of the persons eligible to apply for shares in a share management fishery and their entitlement to shares is to be made in accordance with this Division and the criteria specified in the public notice inviting applications for shares.
- (2) Shares in a fishery are (subject to this section) to be allocated to persons who are the holders of current commercial fishing licences or fishing boat licences and who lawfully took fish for sale in the fishery before it became a share management fishery. If the fish were taken as an employee of some other person, the allocation is to be made to that other person.
- (3) Shares are (subject to this section) to be allocated to eligible persons in proportion to their catch history in the fishery. If more than one class of fish was caught in the fishery, the allocation is to take into account the value of each class of fish that was part of the catch history.
- (4) If a restricted fishery becomes a share management fishery, the persons entitled to shares in the fishery are the persons who, immediately before it ceased to be a restricted fishery, were entitled to take fish for sale in the restricted fishery or, if a person is entitled to take fish for sale in the restricted fishery as the employee or nominee of some other person, that other person. The allocation of shares to any such persons may be made having regard to existing entitlements in the restricted fishery.
- (5) However, if a restricted fishery is described as an exploratory or developmental fishery, the entitlement to shares in the fishery is to be determined in accordance with the regulations.
- (6) If a share management fishery is redefined, the entitlement to shares is to be determined in such manner as the Minister considers equitable having regard to the proportion of shares held in an existing fishery being redefined, the proportion of the redefined fishery to which the old

---

shares applied, the catch history of shareholders and any other factor the Minister considers relevant.

- (7) If a category 2 share management fishery is converted to a category 1 share management fishery after the commencement of limited access to the fishery, the persons entitled to shares in the fishery are the persons who are shareholders in the category 2 share management fishery. The allocation of shares to any such person is to be made having regard to the shares held by the person in the category 2 share management fishery.
- (8) For the purpose of allocating shares in a share management fishery, if the catch history of a person is a component of a fishing business, the catch history of the person is taken to be the catch history of the person (or persons) who own that fishing business when shares are allocated.

#### **51 Catch history**

- (1) The catch history of a person is (subject to the regulations) to be determined under and in accordance with the criteria specified by the Minister in the public notice inviting eligible persons to apply for shares.
- (2) The criteria are to specify the period before the fishery becomes a share management fishery during which the catch history of a person is to be determined. The criteria may allow persons to choose their best catch history for a specified part of the relevant period.
- (3) (Repealed)
- (4) The catch history of a person is, subject to any appeal under this Part, to be determined by the Minister having regard to the records, kept by the Director-General, of fish taken by the person or such other documents as are prescribed by the regulations.
- (5) The Minister may increase the catch history of a person for any period during which the person was unable to engage in the person's usual fishing activities because of the person's duties as a representative of the commercial fishing industry.

#### **52 Final issue of shares**

- (1) After all appeals to the Share Management Fisheries Appeal Panel have been disposed of in connection with a share management fishery, the Minister is to make the final issue of shares to eligible persons with effect from the commencement of the management plan for the fishery.
- (2) For that purpose, the Minister may redetermine the provisional issue of shares and cancel shares so issued or issue new shares.
- (3) The Minister must, as soon as practicable:

- 
- (a) notify each applicant for shares of the final result of the application, and
    - (b) give to each applicant a statement in writing of the names of the persons who were finally issued with shares and of the number of shares issued to each such person.
  - (4) The Minister must also, as soon as practicable, publish in the Gazette the names of all the persons who were finally issued with shares and the number of shares issued to each such person.
  - (5) A person who was the holder of provisional shares in a fishery is not entitled to compensation because of a redetermination of the provisional issue of shares (whether under this section or as a result of any legal proceedings).
  - (6) Shares are to be in such form as the Minister approves.

**52A Shares subject to appeal**

- (1) Despite section 52, the Minister may cancel provisional shares or issue final shares in a share management fishery, and the management plan for that fishery may be made, even if any appeal relating to the issue of provisional shares is still outstanding.
- (2) If the Minister considers that a person's entitlement to shares may be affected by any such appeal, the Minister may issue shares in the fishery as *shares subject to appeal*.
- (3) Shares subject to appeal are subject to the following special conditions:
  - (a) the transfer of, or any other registrable dealing in, the shares is only permitted with the consent of the Minister,
  - (b) no compensation is payable by or on behalf of the State for cancellation of the shares for any reason, including:
    - (i) cancellation by the Minister resulting from a determination in relation to the appeal, or
    - (ii) cancellation due to the termination of the fishery as a share management fishery,
  - (c) any other conditions prescribed by the regulations.
- (4) On completion of the relevant appeal:
  - (a) the Minister must cancel the shares subject to appeal, and
  - (b) the Minister may, if appropriate, issue a person with shares in accordance with this Act.

## Division 4      Limited access to fishery after issue of shares

### 53      Commencement of limited access to fishery

- (1) Shares issued provisionally in a share management fishery do not take effect until a day appointed by the Minister by order published in the Gazette for the commencement of shareholding in the fishery and for limited access to the fishery.
- (2) The day so appointed is to be at least 6 months after the fishery became a share management fishery, except in the circumstances prescribed by the regulations.

### 54      Limiting access to shareholders etc before commencement of management plan

- (1) After the day appointed for the commencement of limited access to a share management fishery and until the commencement of the management plan for the fishery, the fishery is a *limited access fishery*.
- (2) A commercial fishing licence does not authorise a person to take fish in a limited access fishery unless:
  - (a) the licensee is the holder of shares in the fishery (irrespective of the number of shares held) or is an applicant for shares who has duly lodged an appeal to the Share Management Fisheries Appeal Panel and whose appeal is pending, or
  - (b) the licensee is duly nominated in the Share Register by that holder or applicant to take fish on behalf of that holder or applicant,and the licence is duly endorsed under this Part for the taking of fish in the fishery.
- (3) A holder of shares is not entitled to have his or her licence endorsed to take fish in a limited access fishery (or to nominate another person to do so) if all the shares held by the person were acquired by dealings after the initial issue of shares in the fishery, unless the acquisition is declared by the regulations to be an authorised acquisition for the purposes of this section.

**Note.** An example of an acquisition that may be authorised by the regulations is an acquisition in a fishery that was previously a restricted fishery to which access could previously have been obtained by other fishers.

### 55      Fishery that is existing restricted fishery

- (1) A share management fishery that is also a restricted fishery ceases to be a restricted fishery when it becomes a limited access fishery.
- (2) The endorsement of a commercial fishing licence to take fish in such a restricted fishery becomes, on the fishery so ceasing to be a restricted

---

fishery, an endorsement under this Part to take fish in the share management fishery. This subsection applies only if the person concerned is entitled under this Part to have the licence so endorsed.

- (3) Any provisions of the regulations that apply to such a restricted fishery apply (with any necessary modifications) as provisions of the regulations that apply to the limited access fishery, until those provisions are repealed.

## **Division 5      Management plans**

### **56      Preparation of draft management plan**

- (1) The Minister is to arrange for the preparation of a draft management plan for a share management fishery as soon as practicable after the fishery becomes a limited access fishery.
- (2) The Minister may arrange for the preparation of a new draft management plan for the fishery following a fishery review in accordance with this Part.

### **57      Content of management plan**

- (1) The management plan for a share management fishery may make provision for or with respect to the following:
- (a) the objectives of the plan,
  - (b) the classes of shares in the fishery and the provisions of the plan applicable to each such class,
  - (c) the rights of shareholders to take fish or nominate others to take fish in the fishery,
  - (d) the fish that may be taken in the fishery,
  - (e) the area for taking fish in the fishery,
  - (f) the times or periods for taking fish in the fishery,
  - (g) the use of boats and fishing gear in the fishery,
  - (h) the conduct of fishery reviews for the purposes of the preparation of a new plan,
  - (i) the species or group of species of fish taken in the fishery that are to be subject to a total allowable catch for the commercial fishing sector,
  - (j) the protection of the habitats of the species of fish that may be taken in the fishery (including habitats at all stages of the life history of any such species),
  - (k) the taking of bait for use in the fishery,

- (l) the matters expressly authorised by this Act to be included in the plan,
  - (m) any other matters relating to the management of the fishery that are consistent with this Act and its objects.
- (2) A management plan must:
  - (a) include performance indicators to monitor whether the objectives of the plan and ecologically sustainable development are being attained, and
  - (b) specify at what point a review of the management plan is required when a performance indicator is not being satisfied.

#### **57A Supporting plan**

- (1) The Minister may arrange for the preparation of a draft plan relating to management of all or any specified class of share management fisheries (a *supporting plan*).
- (2) A supporting plan may make provision for or with respect to any matter for which a fishery management plan may make provision, but cannot contain any provision that could not be contained in a management plan.
- (3) A management plan for a fishery may adopt by reference any of the provisions of a supporting plan as in force at a particular time or as in force from time to time and with or without modification.
- (4) Any provisions so adopted are taken to form part of the management plan for the fishery.
- (5) A provision of a supporting plan has no effect in relation to a share management fishery except to the extent that the provision is adopted by the management plan for the fishery under this section.
- (6) The Minister may arrange for the preparation of a new supporting plan following a fishery review under this Part or at such other times as the Minister considers appropriate.

#### **58 Public and industry consultation**

- (1) The Minister is required to give the public an opportunity to make submissions on any proposed management plan or supporting plan (or proposed new plan) and to take any submission that is duly made into account.
- (2) The Minister is required to consult relevant commercial or recreational fishing bodies, and bodies representing indigenous and conservation interests, about any such proposed plan, including, in the case of a proposed management plan (or proposed new management plan), the Management Advisory Committee for the fishery to which it relates.

---

**59 (Repealed)****60 Making of plan by regulation**

- (1) A management plan for a fishery, or a supporting plan, including any amendment or new plan, is to be made by a regulation.
- (2) Any such regulation is not repealed by the operation of Part 3 of the *Subordinate Legislation Act 1989*.

**61 Commencement of management plan or supporting plan**

- (1) A management plan for a fishery commences when the regulation making the plan commences.
- (2) A supporting plan commences when the regulation making the plan commences.

**62 Plan prevails over other regulations and closures**

- (1) If a provision of the management plan for a fishery (or a provision of a supporting plan adopted by the management plan) is inconsistent with any other regulation under this Act or any fishing closure, the management plan prevails.
- (2) However, the management plan does not prevail over a provision of a regulation or fishing closure which is expressed to have effect despite the management plan.
- (3) Before a provision referred to in subsection (2) is made, the Minister is required to consult with the Management Advisory Committee for the fishery and certify in writing to the Governor that the matter cannot be delayed until a new management plan is made. Any such provision in a fishing closure must be approved by the Governor.
- (4) Subsection (3) does not apply to a provision that deals with an environmental emergency and which has effect for a period not exceeding 8 weeks.

**63 Fisheries reviews—new plan**

- (1) A management plan for a fishery is not to be replaced by a new plan until at least 5 years after the existing plan was made, unless the existing plan otherwise provides.
- (2) The Director-General is to arrange a review into each share management fishery at such times as the management plan for the fishery provides and, subject to that plan, at such other times as the Minister determines. A review must be held before the term of the shares in the fishery is due to expire.

- 
- (3) The Director-General is to constitute a representative group of persons to assist in the conduct of the review. The group is to include representatives of the Management Advisory Committee for the fishery, and any other relevant commercial or recreational fishing industry bodies, as appropriate.
  - (4) The Director-General is to report to the Minister on the review.
  - (5) The Minister is to consider the report of the review and take such action (including the preparation of a new management plan) under this Act with respect to the fishery the subject of the review as the Minister considers appropriate.

#### **64 Amendment of plan**

A management plan for a fishery or supporting plan may not be directly amended unless the amendment is of a kind authorised by the plan.

#### **65 Contravention of plan**

- (1) A shareholder in a share management fishery is guilty of an offence if the shareholder (or a person nominated by the shareholder to take fish in the fishery) contravenes a provision of a management plan for the fishery, being a contravention that is a designated contravention.  
Maximum penalty: In the case of a corporation, 1,000 penalty units or, in any other case, 500 penalty units.
- (2) A *designated contravention* is a contravention of a provision of a management plan that is designated as an offence by:
  - (a) the management plan, or
  - (b) a supporting plan (if adopted by the management plan).
- (3) A management plan or supporting plan may also designate whether any such offence is an offence for which the shares of the shareholder are liable to forfeiture under this Act.

### **Division 6 Fishing and other shareholding rights**

#### **66 Who may fish in share management fisheries after commencement of management plan**

After the commencement of the management plan for a share management fishery, a commercial fishing licence does not authorise a person to take fish in the fishery unless:

- (a) the licensee is the holder of shares in the fishery or is duly nominated by that holder to take fish on behalf of that holder, and
- (b) that holder has not less than the minimum shareholding in the fishery required under this Division, and

- 
- (c) the licence is duly endorsed, in accordance with this Division, for the taking of fish in the fishery.

**67 Minimum shareholding required to fish after commencement of management plan**

- (1) A person who holds shares in a share management fishery is not entitled, after the commencement of the management plan for the fishery, to take fish in the fishery or to nominate another person to do so on his or her behalf unless the person has the minimum shareholding for that fishery fixed by the management plan.
- (2) A separate minimum shareholding may be fixed in respect of a person who acquires shares after the initial issue of shares or a different minimum shareholding may be fixed for any such shareholding. Different minimum shareholdings may also be set for different classes of shares.
- (3) Minimum shareholdings may be fixed so that the minimum is increased during subsequent periods.
- (4) A management plan may provide that the requirement for a minimum shareholding may be satisfied by taking into account the shareholder's shares in other share management fisheries or shareholder's entitlements or catch history in other fisheries.

**68 Endorsements on licences**

- (1) The Minister may endorse a commercial fishing licence for the taking of fish in a share management fishery.
- (2) (Repealed)
- (3) A licence may be so endorsed only if:
  - (a) the licensee is the holder of shares in the share management fishery or is duly nominated by that holder to take fish on behalf of that holder, and
  - (b) the shareholder has not less than the minimum shareholding in the share management fishery required under this Division, or the minimum such shareholding for the class of shares concerned, and
  - (c) any community contribution, management charge or other amount due and payable by the holder under this Part has been paid.
- (4) The licence of the holder of shares may not be endorsed if the holder has duly nominated some other commercial fisher to take fish on behalf of that holder. This subsection is subject to the management plan for the fishery.

- 
- (4A) The licence of the holder of shares (or of a person nominated by the holder) may not be endorsed if the holder is not eligible for an endorsement as a consequence of a contravention of the fishing business transfer rules.
- (4B) The licence of a shareholder may not be endorsed if the shareholder is already authorised, by endorsement, to take fish in another share management fishery, unless the further endorsement is authorised by the management plan for each fishery in which the shareholder is, or will (as a consequence of the further endorsement), be authorised to take fish.
- (4C) Subsection (4B) does not prevent a shareholder from nominating another person to take fish on behalf of the shareholder in any fishery in which the shareholder is prevented from holding an endorsement, subject to compliance with any requirements under section 69.
- (5) An application for an endorsement is to be made in the form and manner approved by the Minister and accompanied by the fee prescribed by the regulations.
- (6) An endorsement:
- (a) remains in force for the period specified in the endorsement, and
  - (b) may be renewed by the grant of an endorsement for a further period.
- (6A) The authority conferred by such an endorsement is subject to such conditions as are prescribed by the regulations or specified in the endorsement.
- (6B) The Minister may, at any time by notice in writing to the holder of a licence who is authorised by an endorsement to take fish in a share management fishery, revoke or vary the conditions of the endorsement or add new conditions. This subsection does not apply to conditions prescribed by the regulations.
- (6C) The holder of a commercial fishing licence who contravenes any condition of an endorsement on the licence under this section is guilty of an offence.
- Maximum penalty:
- (a) 200 penalty units or imprisonment for 6 months (or both) for a first offence, or
  - (b) 400 penalty units or imprisonment for 12 months (or both) for a second or subsequent offence.
- (7) An endorsement may be suspended or cancelled by the Minister:

- 
- (a) if the holder of the licence ceases to be eligible to have the licence endorsed, or
    - (b) if the shareholder fails to pay any community contribution, management charge or other amount due under this Part, or
    - (c) for any other reason authorised by the management plan for the fishery or the fishing business transfer rules.
  - (8) If an endorsement of a shareholder is suspended or cancelled, the shareholder is not entitled to nominate another person to take fish on the shareholder's behalf.
  - (8A) An endorsement of the licence of a shareholder, or of the licence of a nominated fisher of a shareholder, may also be revoked by the Minister on a request made by the shareholder in accordance with the requirements (if any) of the management plan for the fishery.
  - (8B) The Director-General is to record particulars of any endorsement under this section, and any suspension, cancellation or revocation of an endorsement, in the Share Register.
  - (8C) The Minister may approve arrangements under which a person who is eligible for an endorsement is given such an endorsement in the form of a separate document from the commercial fishing licence of the person. Any such document is taken to be an endorsement on the commercial fishing licence of the person authorised by the endorsement to take fish in the fishery, and references in this Act or the regulations to an endorsement extend to an endorsement in that form.
  - (9) Until the commencement of the management plan for a fishery, the Minister may determine the matters required by this section to be determined by the plan. During that period, the requirement for a minimum shareholding does not apply and this section has effect subject to any other necessary modification.

**69 Nomination of commercial fisher by holder of shares**

- (1) The holder of shares in a share management fishery may nominate a commercial fisher to take fish in the fishery on behalf of that holder.
- (2) After the commencement of the management plan for the fishery, the holder may not do so unless the holder has at least the minimum shareholding in the fishery required under this Division.
- (3) The nomination is to be made in a form and manner approved by the Director-General.
- (4) The holder may nominate 2 or more commercial fishers in respect of the same shareholding if authorised to do so under the management plan for the fishery.

- 
- (5) The holder may nominate a commercial fisher who is a shareholder in the same fishery. In that case, the shares of the nominated fisher do not, while the fisher is so nominated and unless the management plan for the fishery otherwise provides, confer any entitlement to take fish in the fishery.
  - (6) However, the holder (the *nominating shareholder*) may not:
    - (a) nominate a commercial fisher who is nominated by another shareholder in the same fishery, unless authorised to do so by the management plan for the fishery, or
    - (b) nominate a commercial fisher who is nominated by another shareholder in another fishery, unless authorised to do so by the management plan for each fishery in which the commercial fisher will be authorised to take fish as a consequence of the nominations.
  - (7) The management plan for a fishery may make further provision for nominations under this section, and for the revocation of nominations, including by requiring a shareholder to keep a record of a nomination or revocation of a nomination.
  - (8) The Director-General is to record any nomination under this section, and any revocation of the nomination, in the Share Register.
  - (9) Until the commencement of the management plan for a fishery, the Minister may determine the matters that, under this section, may be provided for by the plan.

**70 Special endorsements to take fish in share management fishery**

- (1) The Minister may endorse a commercial fishing licence for taking fish for sale in a share management fishery even though the commercial fisher is not entitled under this Part to have the licence so endorsed.
- (2) The Minister may do so only if the Minister is satisfied, after consultation with the Management Advisory Committee for the fishery, and with any other relevant commercial or recreational fishing industry bodies, that an available fisheries resource would not otherwise be utilised.
- (3) A commercial fishing licence endorsed under this section authorises the holder to take fish in accordance with the authority conferred by the endorsement.
- (4) An endorsement under this section:
  - (a) is subject to such conditions as are prescribed by the regulations or specified in the endorsement, and

- 
- (b) remains in force for the period of 6 months or such shorter period as is specified in the endorsement, and
  - (c) may be cancelled or suspended by the Minister at any time.
- (4A) The Minister may, at any time by notice in writing to the holder of a licence who is authorised by an endorsement under this section to take fish in a share management fishery, revoke or vary the conditions of the endorsement or add new conditions. This subsection does not apply to conditions prescribed by the regulations.
- (4B) The holder of a commercial fishing licence who contravenes any condition of an endorsement on the licence under this section is guilty of an offence.  
Maximum penalty: 100 penalty units.
- (5) The regulations may make provision for or with respect to endorsements under this section. In particular, the regulations may prescribe the fee payable for such an endorsement.
- (6) The Minister may approve arrangements under which a person who is proposed to be given an endorsement under this section is given the endorsement in the form of a separate document from the commercial fishing licence of the person. Any such document is taken to be an endorsement on the commercial fishing licence of the person authorised by the endorsement to take fish in the fishery, and references in this Act or the regulations to an endorsement extend to an endorsement in that form.

## **71 Transfer and other dealings in shares**

- (1) A share in a share management fishery may be transferred, assigned, transmitted or mortgaged and any other interest of a kind prescribed by the regulations may be created in the share.
- (2) Without limiting subsection (1), shares may be transferred for the purpose of enabling 2 or more shareholders to hold their shares jointly.
- (3) A transaction that transfers, assigns, transmits, mortgages or otherwise creates an interest in a share in a share management fishery is required to be registered in the Share Register under Division 10.
- (4) This section is subject to any restriction imposed by the management plan for the fishery.
- (5) Before the commencement of the management plan for the fishery, this section applies only to the extent authorised by the regulations.

**71A Issue of further classes of shares in fishery**

- (1) A management plan for a share management fishery may provide for the creation and issue of further classes of shares in the share management fishery.
- (2) Any such further classes of shares in the fishery are to be allocated to shareholders on the basis of criteria provided for by the management plan.
- (3) The criteria are to provide for the recognition of catch history of persons in the fishery during the period from 1986 to 1993 (both years inclusive) or during such other period as the plan provides.
- (4) For the purpose of allocating shares in the fishery, if the catch history of a person is a component of a fishing business, the catch history of the person is taken to be the catch history of the person (or persons) who own that fishing business when shares are allocated.
- (5) If a management plan provides for the issue of further classes of shares in a share management fishery, it is to include provision for the making of appeals to the Share Appeal Panel against decisions made under the plan in relation to the allocation of the shares.

**72 Maximum shareholding permitted**

- (1) The maximum shareholding in a share management fishery is the maximum shareholding fixed in the management plan for the fishery.
- (2) If no maximum shareholding is fixed in the plan, the maximum shareholding is 5% of the number of shares in the fishery at the commencement of the plan.
- (3) The maximum shareholding in a fishery fixed under this section does not apply to or affect the provisional issue of shares or the final issue of shares on the commencement of the management plan for the fishery, or the transfer of those shares to another person.
- (4) If the maximum shareholding is decreased at any time after it is fixed, the decrease in that maximum does not affect an existing shareholder. While any such existing shareholder continues to hold those shares, the maximum shareholding in respect of that shareholder is the previous maximum shareholding.
- (5) Shares in a share management fishery in excess of the maximum shareholding may not be issued to a person by the Minister or recorded in the Share Register.
- (6) Any excess shares are to be cancelled by the Minister. However, the Minister may allow a person who has acquired excess shares to dispose of those shares in accordance with this Part.

- 
- (7) For the purposes of this section, the shareholding of a person is taken to include the shareholding of any other person who has an interest in the shares of the first-mentioned person (within the meaning of the *Banks (Shareholdings) Act 1972* of the Commonwealth).

**73 Duration of shareholding—category 1 share management fishery**

- (1) Shares in a category 1 share management fishery are to be issued initially for a period of 10 years (calculated from the commencement of the management plan for the fishery).
- (2) If during that 10-year period (or any subsequent period for which the shares are renewed) a fishery review is conducted and a new management plan is made under this Part, the shares are taken to be renewed (from the date the new plan commences) for a further period of 10 years and the balance of the current period is terminated.
- (3) If a new management plan is not made by the end of that 10-year period (or any subsequent period for which the shares are renewed), the shares are taken to be renewed, at the end of their current period, for a further period of 10 years.

**73A Duration of shareholding—category 2 share management fishery**

- (1) Shares in a category 2 share management fishery are to be issued initially for a period of 15 years (calculated from the commencement of the management plan for the fishery).
- (2) If by the end of the first 10 years of that 15-year period (or any subsequent period for which the shares are renewed):
- (a) a new management plan has not been made under this Part, and
  - (b) there is no order in force under Division 2A that terminates the fishery at the end of current term of the shares in the fishery,
- the shares are taken to be renewed for a further period of 15 years and the balance of the current period is terminated.
- (3) If by the end of the first 10 years of that 15-year period (or any subsequent period for which the shares are renewed) a fishery review has been conducted and a new management plan has been made under this Part, the shares are taken to be renewed (from the date the new plan commences) for a further period of 15 years and the balance of the current period is terminated.

**74 Surrender of shares**

- (1) The holder of shares in a share management fishery may surrender those shares to the Minister.

- 
- (2) The Minister is, if requested by the shareholder, to sell those shares by public tender and pay 85% of the purchase price to that holder. The balance of the purchase price (after deduction of the expenses reasonably incurred in connection with the sale) is to be credited to the Consolidated Fund.
  - (3) However, if that holder does not request the Minister to sell the shares, the shares are to be cancelled and new shares are not to be issued in their place.

**75 Forfeiture of shares for certain contraventions of Act**

- (1) For the purposes of this section, an offence against this Act or the regulations is a *share forfeiture offence* for a fishery if it is designated in the management plan for the fishery as such an offence.
- (2) A court which convicts a shareholder in a share management fishery, or a commercial fisher taking fish in the fishery on behalf of the shareholder, of a share forfeiture offence may order that the shares (or any of the shares) of the shareholder be forfeited.
- (3) A court which orders the forfeiture of any such shares may also order that the holder of the shares is not eligible to hold shares in the fishery for the period specified by the court.
- (4) The regulations may also provide for the forfeiture of shares by the Minister:
  - (a) for any record of convictions of a shareholder in a share management fishery, or a commercial fisher taking fish in the fishery on behalf of the shareholder, for share forfeiture offences, or
  - (b) for any failure by the shareholder to pay a community contribution or other amount due under this Part (but only to the extent of the amount due).
- (5) The Minister may cancel or sell forfeited shares to which this section applies.
- (5A) Any forfeited shares sold by the Minister are to be sold by public tender.
- (6) The purchase price is to be paid to the credit of the Consolidated Fund, subject to this section.
- (7) If any amount is due under this Part in respect of the forfeited shares that would, on payment, be paid into the Commercial Fishing Trust Fund, that amount is to be deducted from the purchase price and paid to the credit of the Commercial Fishing Trust Fund, and the balance after payment is to be paid to the credit of the Consolidated Fund.

- 
- (8) If shares are forfeited for a failure by the shareholder to pay a community contribution or other amount due under this Part, the following provisions apply:
- (a) any community contribution due under this Part is to be deducted from the purchase price and paid to the credit of the Consolidated Fund,
  - (b) any other amount due under this Part that would, on payment, be paid into the Commercial Fishing Trust Fund, is to be deducted from the purchase price and paid to the credit of the Commercial Fishing Trust Fund,
  - (c) any reasonable costs incurred by or on behalf of the Minister in connection with the sale of the shares are to be deducted from the purchase price and paid to the credit of the Consolidated Fund,
  - (d) the balance (if any) remaining after payment of the amounts referred to in paragraphs (a)–(c) is to be paid to the shareholder.
- (9) The regulations may authorise or require the payment of any part of the purchase price to a person (other than the shareholder) who had an interest in the shares. Any such payment may be made only after payment of the amounts referred to in subsection (8) (a)–(c).
- (10) The Minister may recover from a person, as a debt in any court of competent jurisdiction, any reasonable costs incurred by or on behalf of the Minister in selling shares forfeited by the person, being costs not otherwise recovered as provided by this section.
- (11) The Minister is not liable to pay any community contribution or other amount under this Act that becomes payable in respect of forfeited shares following the forfeiture.

## **Division 7      Management charges and community contributions**

### **76    Management charges**

- (1) The Minister may, subject to this section, determine the management charge payable by holders of shares in a share management fishery. The charge is payable annually, or as otherwise determined by the Minister.
- (2) The management charge is to be such amount as the Minister considers necessary to meet the costs of management for that fishery, being costs of management that are attributed to industry by the management plan for the fishery.
- (3) The management charge is not to exceed the amount prescribed by the management plan for the fishery.

- 
- (4) The management charge is payable by shareholders in proportion to their shareholding or as otherwise provided by the management plan.
  - (4A) The management charge may be fixed to provide for, and the provisions of a management plan relating to the management charge may facilitate, either or both of the following:
    - (a) the calculation of a single management charge for more than one share management fishery (that is, so that holders of shares in more than one share management fishery are not liable to pay a separate management charge in respect of each fishery),
    - (b) the calculation of a single management charge for a single fishing business (even if the fishing business is comprised of, or includes, shares in more than one share management fishery).
  - (5) The management plan may authorise the payment of management charges by instalments.
  - (6) If a management charge, or an instalment of a management charge, is unpaid after the due date for its payment, the Minister may charge interest on the overdue amount at the rate payable from time to time in respect of judgments of the Supreme Court or, if some other rate is prescribed by the management plan for the fishery, that rate.
  - (7) Interest may be charged under subsection (6) for each day that has elapsed between the date on which payment is due and the date of payment.
  - (7A) Interest charged on an overdue management charge, or an instalment of a management charge, under subsection (6) is taken to be part of the management charge.
  - (8) Until the commencement of the management plan for a fishery, the Minister may (after consultation with the Management Advisory Committee for the fishery) determine the matters that may be provided for by the plan.

**77 Community contribution for access to category 1 share management fishery**

- (1) Shareholders in a category 1 share management fishery are required to make a periodic contribution for their right of access to the fishery (a ***community contribution***).
- (2) The community contribution is payable after the commencement of, and in accordance with, the management plan for the fishery.
- (3) The community contribution is to be credited to the Consolidated Fund.

- 
- (4) The community contribution is to be based on the size of the shareholding in the fishery, or as otherwise provided by the management plan for the fishery.
  - (5) The rate of the community contribution, method of its payment and other matters concerning its payment are to be prescribed by the management plan, and not otherwise.
  - (6) The management plan for the fishery may exempt a shareholder from making the community contribution (or reduce any such contribution) if the full rights to take fish in the fishery in accordance with the shareholding have not been exercised during the relevant period.
  - (7) The Treasurer's concurrence is required before any provisions relating to community contributions are inserted in a management plan.

**77A Rental charge for access to category 2 share management fishery**

- (1) Shareholders in a category 2 share management fishery are required to pay a rental charge for their right of access to the fishery.
- (2) The amount of the rental charge, the method of its payment and other matters concerning its payment are to be provided for by the management plan.
- (3) The maximum rental charge is \$100 for a 12-month period.
- (4) The management plan for a fishery may provide for the adjustment of the maximum rental charge to take into account changes in the consumer price index. In that case, the maximum rental charge is the amount so adjusted.
- (5) A person is exempt from paying the rental charge:
  - (a) if the person holds shares in another category 2 share management fishery and has paid a rental charge for the same period in respect of that other fishery (unless the management plan otherwise provides), or
  - (b) in such other circumstances as may be provided for by the management plan.
- (6) This section applies in respect of a category 2 share management fishery:
  - (a) if the fishery is, before the commencement of limited access to the fishery, also a restricted fishery—on and from the day the fishery becomes a share management fishery, or
  - (b) in any other case—on and from the day appointed for the commencement of limited access to the fishery.

- 
- (7) Until the commencement of the management plan for the fishery, the Minister may determine the matters that under this section may be provided for by the plan.
  - (8) For the purposes of this section:
    - (a) an applicant for shares in a category 2 share management fishery who has duly lodged an appeal to the Share Appeal Panel, and whose appeal is pending, is taken to be a shareholder in the fishery, and
    - (b) if a category 2 share management fishery is also a restricted fishery—a person authorised to take fish in the fishery or, if a person is authorised to take fish in the fishery as the employee or nominee of some other person, that other person is taken to be a shareholder in the fishery.

## **Division 8      Allocation of total allowable commercial catch among shareholders**

### **78      Allocation of total allowable catch among shareholders in fishery**

- (1) This section applies to any determination of the total allowable catch of fish for the commercial fishing sector that is required under the management plan for a share management fishery.
- (2) The Minister is to allocate among shareholders in all relevant share management fishery the whole total allowable catch of fish for the commercial fishing sector.
- (3) An allocation among shareholders in a particular fishery is to be made in proportion to the shareholdings of the persons concerned.
- (3A) The management plan for a fishery that includes different kinds of fish may, for the purposes of this section, provide for different classes of shareholders in the fishery having regard to the kind of fish taken by the shareholders (including in connection with any catch history on which the criteria for shareholding in the fishery was based). The management plan may provide (despite subsection (3)) for the allocation of the total allowable catch of a particular kind of fish among the relevant class of shareholders only.
- (4) If 2 or more fisheries are involved in the allocation, the total amount allocated to each fishery is to be determined by the TAC Committee having regard to the relative composition of the catch of fish for each fishery concerned.
- (5) An allocation is to be made to all shareholders, whether or not they hold the minimum shareholding required to fish in the fishery.

- 
- (6) The Minister may delay making an allocation and not restrict the catch of shareholders.
  - (7) However, if it appears that the total allowable catch may be exceeded because of any such delay, the Minister is to allocate the balance of the total allowable catch during the remaining fishing period to which it applies in accordance with this section. A shareholder is not entitled to any such allocation if the shareholder would become entitled to take more fish than the shareholder would have been entitled to take if the allocation had not been delayed.
  - (8) If any shares have been forfeited or surrendered, but not yet sold, an allocation is to be made in respect of those shares and dealt with in such manner as the Minister thinks fit.
  - (9) An allocation is to be notified in writing to each shareholder concerned.

#### **79 Transfer of allocations**

- (1) A shareholder in a share management fishery may transfer to any other shareholder in that fishery the whole or any part of his or her allocation under this Division of the total allowable catch concerned in accordance with the management plan for the fishery.
- (2) Subject to the management plan:
  - (a) a shareholder may not acquire by any such transfers more than twice the amount of the shareholder's actual allocation, and
  - (b) a transfer may not be made after the end of the fishing period to which the allocation relates.
- (3) A transaction that purports to have the effect of transferring the whole or any part of an allocation does not have effect until it is notified in writing to the Director-General.

#### **80 Carry over to, or borrowing from, future allocations**

- (1) The management plan for a share management fishery may authorise a shareholder in the fishery:
  - (a) to transfer to the next fishing period any part of the allocation of the total allowable catch for the current fishing period that is not taken during the current period, or
  - (b) to transfer to the allocation of the total allowable catch for the current fishing period part of the allocation for the next fishing period.
- (2) Subject to any such management plan, a transfer under this section takes effect when it is notified to the Director-General in writing by the shareholder.

---

**81 Payment for fish caught in excess of allocation or forfeiture of shares**

- (1) A shareholder who, during any period, takes more fish than the shareholder's allocation under this Division (whether personally or by means of a nominated fisher) is required to pay to the Director-General the value of the excess fish so caught. The amount paid is to be credited to the Consolidated Fund.
- (2) If the amount required to be paid by the shareholder is not paid within the time specified by the Minister in a written notice to the shareholder, the requisite number of shares of the shareholder specified in that notice are forfeited.
- (3) The requisite number of shares is the number of shares that, if sold by public tender, would in the Minister's opinion raise an amount equivalent to the amount required to be paid by the shareholder.
- (4) If the shareholder does not have sufficient shares, the balance of the amount required to be paid by the shareholder may be recovered by the Minister as a debt in a court of competent jurisdiction.
- (5) The value of fish for the purposes of this section is the value that the Minister considers to be the market value of the fish. If the Minister is satisfied that the shareholder did not intend to exceed the shareholders' allocation, the Minister is to reduce the value by the amount the Minister considers appropriate for the costs incurred by the shareholder in taking the fish.
- (6) The Minister is to sell any shares forfeited under this section by public tender. The purchase price (after deduction of the expenses reasonably incurred in connection with the sale) is to be credited to the Consolidated Fund.
- (7) Before finally selling any such share by public tender, the Minister is required to offer to sell the share to the original holder for the tender price.
- (8) For the purposes of this section, fish taken by a shareholder include fish taken on behalf of the shareholder by a commercial fisher duly nominated by the shareholder under this Part.
- (9) Nothing in this section precludes proceedings being taken for an offence against this Act or the regulations.
- (10) The management plan for a fishery may provide that this section does not apply in specified circumstances to the taking of fish in the fishery.

  - (8) The regulations may make provision for or with respect to applications for aquaculture leases or to auctions, public tenders and ballots for aquaculture leases.

#### **164 Rights conferred by lease**

- (1) An aquaculture lease vests in the lessee, the lessee's executors, administrators, and assigns:
  - (a) the exclusive right during the currency of the lease to undertake the type of aquaculture specified in the lease, subject to the provisions of or made under this Act and the provisions of the lease, and
  - (b) the ownership of all fish or marine vegetation specified in the lease that are within the leased area.
- (2) An aquaculture lease does not confer the right of exclusive possession of the leased area.

- (4) Nothing in this section authorises a person to interfere with or damage anything on the leased area.

**165 Lease rentals**

- (2) The Minister may redetermine the rental of an aquaculture lease at such periods, being not less than 1 year, as the Minister thinks fit.
- (3) The amount paid in connection with an auction or a public tender for an aquaculture lease does not constitute the rental payable for the lease.
- (4) The regulations may make provisions for or with respect to the rental for aquaculture leases.
- (5) In particular, the regulations may prescribe a minimum rental for an aquaculture lease, either in respect of leases generally or leases of a particular class.

**166 Overdue rental**

- (1) If the rental of an aquaculture lease is unpaid after the date on which payment was due, the Minister may charge interest on the overdue amount at the rate payable from time to time in respect of judgments of the Supreme Court or, if some other rate is prescribed by the regulations, at that rate.

- (3) A preferential right does not arise under this section unless the Minister is satisfied the lessee or former lessee has substantially observed and performed the covenants and conditions of the lease and is satisfied the area should continue to be available for aquaculture.
- (4) Nothing in this section requires the Minister to grant or renew an aquaculture lease.

## **Division 2 Aquatic reserves**

### **Subdivision 1 Declaration of aquatic reserves**

#### **194 Declaration of aquatic reserves**

- (1) The Minister may, by notice published in the Gazette, declare an area specified in the notice to be an aquatic reserve.
- (2) The purpose of declaring an area to be an aquatic reserve is to conserve the biodiversity of fish and marine vegetation and, consistently with that purpose:
  - (a) to protect fish habitat in the reserve, or
  - (b) to provide for species management in the reserve, or
  - (c) to protect threatened species, populations and ecological communities (within the meaning of Part 7A) in the reserve, or
  - (d) to facilitate educational activities and scientific research.
- (3) Land that is the subject of an aquaculture lease may be declared to be an aquatic reserve. However, nothing in this Division prevents the lessee from undertaking aquaculture in accordance with this Act in the area concerned during the currency of the lease.
- (4) Land that is dedicated for a public purpose may be declared to be an aquatic reserve. However, nothing in this Division prevents the land from being used for the purpose for which it is dedicated or permits the land to be used contrary to the provisions of any Act or statutory instrument applying to the land.

---

**195 Consent required for declarations**

- (1) The Minister is required to obtain the appropriate consent before declaring an area to be an aquatic reserve.
- (2) The appropriate consent for an area (other than an area of public water land) is the consent of the owner of the land concerned.
- (3) The appropriate consent for an area of public water land is:
  - (a) in the case of public water land that is within a dam or reservoir used primarily for domestic water supply or within an area designated by or under an Act as a catchment area in respect of such a dam or reservoir—the consent of:
    - (i) the authority controlling the dam or reservoir, and
    - (ii) the Ministers respectively administering the *Public Health Act 2010* and the *Public Works Act 1912*, and
  - (b) in the case of public water land that is Crown land—the consent of the Minister administering the *Crown Lands Act 1989*, and
  - (c) in the case of public water land (other than that referred to in paragraph (a)) that is vested in a public authority or in trustees for a public purpose—the consent of that authority or those trustees.
- (4) This section does not apply:
  - (a) to an area of water (other than freshwater) and the land submerged by that water below mean high water mark, or
  - (b) to an area vested in the Minister, or
  - (c) to an area subject to an aquaculture lease.

**195A Consent of owners**

If an owner of land whose consent is required under section 195 to the declaration of an area as an aquatic reserve cannot, after diligent inquiry, be found or identified, the declaration may be made without the consent of that owner.

**195B Meaning of “diligent inquiry”**

- (1) A species is eligible to be listed as a *species presumed extinct* at a particular time if, in the opinion of the Fisheries Scientific Committee, it has not been recorded in its known or expected habitat in New South Wales, despite targeted surveys, over a time frame appropriate, in the opinion of the Fisheries Scientific Committee, to its life cycle and form.
- (2) A species is eligible to be listed as a *critically endangered species* if, in the opinion of the Fisheries Scientific Committee, it is facing an extremely high risk of extinction in New South Wales in the immediate future, as determined in accordance with criteria prescribed by the regulations.

- 
- (3) A species is eligible to be listed as an ***endangered species*** if, in the opinion of the Fisheries Scientific Committee:
    - (a) it is facing a very high risk of extinction in New South Wales in the near future, as determined in accordance with criteria prescribed by the regulations, and
    - (b) it is not eligible to be listed as a critically endangered species.
  - (4) A species is eligible to be listed as a ***vulnerable species*** if, in the opinion of the Fisheries Scientific Committee:
    - (a) it is facing a high risk of extinction in New South Wales in the medium-term future, as determined in accordance with criteria prescribed by the regulations, and
    - (b) it is not eligible to be listed as an endangered or critically endangered species.

**220FA Listing of populations**

- (1) A population is eligible to be listed as an ***endangered population*** if, in the opinion of the Fisheries Scientific Committee, it is facing a very high risk of extinction in New South Wales in the near future, as determined in accordance with criteria prescribed by the regulations.

**220FB Listing of ecological communities**

- (1) An ecological community is eligible to be listed as a ***critically endangered ecological community*** if, in the opinion of the Fisheries Scientific Committee, it is facing an extremely high risk of extinction in New South Wales in the immediate future, as determined in accordance with criteria prescribed by the regulations.
- (2) An ecological community is eligible to be listed as an ***endangered ecological community*** if, in the opinion of the Fisheries Scientific Committee:
  - (a) it is facing a very high risk of extinction in New South Wales in the near future, as determined in accordance with criteria prescribed by the regulations, and

- (3) An ecological community is eligible to be listed as a ***vulnerable ecological community*** if, in the opinion of the Fisheries Scientific Committee:

- 
- (a) it is facing a high risk of extinction in New South Wales in the medium-term future, as determined in accordance with criteria prescribed by the regulations, and
  - (b) it is not eligible to be listed as an endangered or critically endangered ecological community.

**220FC Threatening processes eligible for listing as key threatening processes**

- (1) A threatening process is eligible to be listed as a *key threatening process* if, in the opinion of the Fisheries Scientific Committee:
  - (a) it adversely affects threatened species, populations or ecological communities, or
  - (b) it could cause species, populations or ecological communities that are not threatened to become threatened.
- (2) The regulations may prescribe criteria for the determination of matters under this section.

**220FD Regulations prescribing criteria under this Part**

A regulation that prescribes criteria for the purposes of section 220F, 220FA, 220FB or 220FC is not to be made unless the Minister certifies in writing that:

- (a) the criteria are based on scientific principles only, and
- (b) any criteria for listing under the *Environment Protection and Biodiversity Conservation Act 1999* of the Commonwealth were given due consideration before the regulation was made.

**Subdivision 2 Procedure for listing**

**220G Fisheries Scientific Committee responsible for lists**

The Fisheries Scientific Committee is responsible for determining whether any species, populations, ecological communities or threatening processes should be listed in Schedule 4, 4A, 5 or 6.

**220H Who may initiate action for listing**

- (1) The Fisheries Scientific Committee may make a determination for the purposes of this Subdivision on its own initiative.
- (2) The Fisheries Scientific Committee may also make a determination:
  - (a) following a request by the Minister or the NRC, or
  - (b) on a nomination, made in accordance with this Division, of any other person.

- (3) A proposal that involves the alteration of the listing status of a species or ecological community (by moving the description of the species or ecological community from one Schedule to another or from one Part of a Schedule to another Part of the Schedule) may be dealt with under this Subdivision as a composite proposal, whereby all aspects of the proposal are dealt with together.

**220I How nominations made**

- (1) Any person may nominate an amendment of Schedule 4, 4A, 5 or 6.
- (2) A nomination must be in writing addressed to the Chairperson of the Fisheries Scientific Committee and must include any information prescribed by the regulations.
- (3) The Fisheries Scientific Committee may request a person who makes a nomination to provide additional information about the subject-matter of the nomination within a specified period.
- (4) A person must not deliberately and wilfully make a vexatious nomination.  
Maximum penalty (subsection (4)): 20 penalty units.
- (5) The Fisheries Scientific Committee is to give notice of a nomination to the Minister and the NRC within 14 days after the nomination is made.

**220IA Referral of nomination to Threatened Species Scientific Committee**

- (1) If, in the opinion of the Chairperson of the Fisheries Scientific Committee, a nomination of a key threatening process relates to a threatening process that is likely to have an impact on both terrestrial and aquatic environments, the Chairperson may consult with the Chairperson of the Threatened Species Scientific Committee for the purpose of determining whether the nomination should also be considered by that Committee under the *Threatened Species Conservation Act 1995*.
- (2) If the Chairpersons agree that the nomination should also be considered by the Threatened Species Scientific Committee under the *Threatened Species Conservation Act 1995*, the nomination is to be referred to the Threatened Species Scientific Committee for consideration.
- (3) In such a case:
  - (a) the nomination is taken also to be a nomination for the amendment of Schedule 3 to that Act, made to the Threatened Species Scientific Committee in accordance with Division 3 of Part 2 of that Act on the date the Chairpersons agree that the nomination should be referred to that Committee for consideration, and

- 
- (b) Division 3 of Part 2 of that Act applies in relation to the nomination (in addition to this Part).
  - (4) For the purposes of this section, a ***nomination of a key threatening process*** means a nomination of an amendment to Schedule 6.  
**Note.** There is a reciprocal process in the *Threatened Species Conservation Act 1995* for the referral of nominations made under that Act to the Fisheries Scientific Committee in appropriate cases.

**220J Consideration of nomination by Fisheries Scientific Committee**

- (1) The Fisheries Scientific Committee is to determine priorities for its consideration of nominations every 12 months and in determining those priorities is to have regard to:
  - (a) the degree of threat, immediacy of threat, taxonomic distinctiveness and such other matters as the Fisheries Scientific Committee considers relevant, and
  - (b) any advice or recommendations of the Minister or the NRC concerning those priorities.
- (1A) The NRC and the Minister may give advice or make recommendations to the Fisheries Scientific Committee concerning priorities for the consideration of nominations by the Fisheries Scientific Committee, and in giving that advice or making those recommendations the NRC and the Minister may consider State-wide issues of concern in biodiversity conservation.
- (2) The Fisheries Scientific Committee may consider different nominations about the same subject together, and may consider different matters in the same nomination separately.
- (3) The Fisheries Scientific Committee may reject a nomination if:
  - (a) the Committee determines not to make the amendment nominated having regard to the eligibility requirements of this Part for listing, or
  - (b) the subject of the nomination has already been dealt with, or
  - (c) the nomination is vexatious, or
  - (d) the nomination is not accompanied by the information prescribed by the regulations, or
  - (e) any additional information requested by the Committee is not provided within the period specified for its provision or any such additional information provided is inadequate.
- (4) If the Fisheries Scientific Committee rejects a nomination, it is to notify the Minister, the NRC and the person who made the nomination and is to give reasons for the rejection.

---

**Note.** Section 220O enables the Committee to recommend other measures to protect the fish or marine vegetation even if it rejects a nomination.

**220K Notification and consultation with respect to proposed determination of Fisheries Scientific Committee**

Before it makes a determination for the amendment of Schedule 4, 4A, 5 or 6, the Fisheries Scientific Committee must:

- (a) notify the Minister of the proposed determination and, if it was made in response to a nomination, also notify the person who made the nomination, and
- (b) give the public an opportunity to make submissions on the proposed determination and the reasons for it, and
- (c) have regard to any written submissions received by the Committee on or before the date specified for the receipt of public submissions about the proposed determination.

**Note.** Section 284 regulates the public consultation procedure. It requires copies of the proposed determination and reasons to be publicly exhibited and a period of at least 30 days for public comment.

Section 220N provides for provisional listings of endangered species without the need for compliance with this section.

**220L Fisheries Scientific Committee's final determination**

- (1) The Fisheries Scientific Committee must either accept or reject a proposal for the amendment of Schedule 4, 4A, 5 or 6, and must give reasons for the determination.
- (2) The reasons for a determination are to include reference to such of the criteria prescribed by the regulations under sections 220F–220FC as may be relevant to the determination.
- (3) In a case involving a nomination, the Fisheries Scientific Committee must make a final determination within 6 months after the end of the period allowed for public comment on the proposed determination of the nomination under section 220K (as provided under section 284).
- (4) Before making a final determination the Fisheries Scientific Committee must give the Minister notice in writing of the proposed final determination. The Minister then has 2 months to decide whether to refer the proposed final determination back to the Fisheries Scientific Committee for further consideration under section 220M.
- (5) The Fisheries Scientific Committee is not to proceed to make the proposed final determination unless:
  - (a) the Minister has notified the Fisheries Scientific Committee that the Minister has decided not to refer the proposed determination

- back to the Fisheries Scientific Committee for further consideration, or
  - (b) the Minister has not referred the proposed final determination back to the Fisheries Scientific Committee for further consideration under section 220M within 2 months after the Minister was given notice of the proposed final determination, or
  - (c) if the Minister has referred the proposed final determination back to the Fisheries Scientific Committee for further consideration under section 220M within that 2 months, the Fisheries Scientific Committee has decided to proceed with the final determination following that further consideration.
- (6) The Minister may at the request of the Fisheries Scientific Committee extend and further extend the period of 6 months under subsection (3), to a maximum period of 2 years.
- (7) Failure to make a final determination within the period required by this section or to give notice to the Minister of a proposed final determination within the period required by this section does not affect the validity of the determination.

**220M Minister's response to proposed final determination**

- (1) Within 2 months after receiving notice from the Fisheries Scientific Committee of a proposed final determination, the Minister may:
- (a) notify the Fisheries Scientific Committee that the Minister has decided not to refer the proposed determination back to the Fisheries Scientific Committee for further consideration, or
  - (b) refer the proposed final determination back to the Fisheries Scientific Committee for further consideration.
- (2) The Minister may only refer a matter back to the Fisheries Scientific Committee for reasons of a scientific nature provided to the Fisheries Scientific Committee. In the case of a nomination, the Fisheries Scientific Committee is to notify the person who made the nomination that the matter has been referred back to the Fisheries Scientific Committee and of the Minister's reasons for doing so.
- (3) If a proposed final determination is referred back to the Fisheries Scientific Committee for further consideration:
- (a) the Fisheries Scientific Committee may, after further considering it, decide to proceed with the final determination, to change the final determination or not to proceed with the final determination, and
  - (b) the Fisheries Scientific Committee is to make that decision within 3 months, and

- 
- (c) the Minister cannot refer the matter back to the Fisheries Scientific Committee again after it has made that decision.
  - (4) Failure to make a decision within the period required by this section does not affect the validity of the decision.

**220MA Publication of final determination**

- (1) On making a final determination, the Fisheries Scientific Committee must, as soon as practicable:
  - (a) make an order under section 220D giving effect to the determination, and
  - (b) in a case involving a nomination, notify the person who made the nomination of the determination, and
  - (c) notify the Minister, the NRC and the Director-General of the determination, and
  - (d) publish notice of the determination in a newspaper circulating generally throughout the State and, if the determination is likely to affect a particular area or areas (other than the State as a whole), in a newspaper circulating generally in that area or areas, and
  - (e) publish notice of the making of the determination in the Gazette.
- (2) The notice must specify the manner in which members of the public may obtain a copy of the determination and the reasons for it.
- (3) The reasons for a final determination are to include reference to such of the criteria prescribed by the regulations under sections 220F–220FC as may be relevant to the determination.
- (4) Copies of the final determination and the reasons for it are to be made available to members of the public (free of charge) as follows:
  - (a) by publication on the internet site of the Department,
  - (b) in response to a request made by contacting an office of the Department in a manner specified in the notice of the determination,
  - (c) in response to a request made in person at an office of the Department at an address specified in the notice of the determination.
- (5) The validity of a final determination cannot be questioned in any legal proceedings except those commenced in a court by any person within 3 months of the date of publication in the Gazette of notice of the making of the final determination.

**220N Provisional listing**

- (1) This section applies to the provisional listing, on an emergency basis, of a species in Part 1 of Schedule 4 as an endangered species, being a species that:
  - (a) although not previously known to have existed in New South Wales, is believed on current knowledge to be indigenous to New South Wales, or
  - (b) was presumed to be extinct in New South Wales but has been rediscovered.
- (2) The Fisheries Scientific Committee may make a determination for the provisional listing of any such endangered species without complying with sections 220K, 220L (3)–(6) and 220M. The other provisions of this Subdivision apply to and in respect of any such determination.
- (2A) The Fisheries Scientific Committee must make a determination about a nomination within 6 months after it is made or, if additional information has been requested, after that information has been provided or the period specified for its provision has expired. Failure to make a determination within that period does not affect the validity of the determination.
- (3) An order made for the purpose of provisionally listing the endangered species must provide, in the matter inserted in Schedule 4, that the listing has effect for a specified period (not exceeding 12 months).
- (4) The Fisheries Scientific Committee must review the status of any such endangered species in accordance with this Subdivision (including section 220K) as soon as practicable after the species is provisionally listed.

**220NA Lists to be kept under review**

- (1) The Fisheries Scientific Committee must keep the lists in Schedules 4, 4A, 5 and 6 under review and must, at least every 2 years, determine whether any changes to the lists are necessary.
- (2) The NRC or the Minister may give advice or make recommendations to the Fisheries Scientific Committee concerning priorities for the review of the lists in Schedules 4, 4A, 5 and 6 under this section, and the Fisheries Scientific Committee is to have regard to any such advice or recommendations.
- (3) The NRC or the Minister may give directions to the Fisheries Scientific Committee requiring the Fisheries Scientific Committee to undertake investigations for the purpose of identifying species, populations and communities that are potentially threatened species, populations and communities.

**220O Protection measures apart from listing**

- (1) The Fisheries Scientific Committee may, if of the opinion that a species, population or ecological community should be protected but does not satisfy the criteria for listing, recommend to the Minister that other measures should be taken under this Act to protect the species, population or ecological community.
- (2) The Minister is to give the Committee the reasons for any rejection of such a recommendation of the Committee.

**Note.** The measures that could be taken to protect an unlisted species, population or ecological community include fishing closures (s 8), prohibitions on the taking of specified species of fish (s 19—protected fish), prohibitions on the taking of specified species of fish for sale or taking fish from specified waters (s 20—fish and waters protected from commercial fishing), bag limits (s 17), declaration of prohibited size of fish (s 15), restrictions on the lawful use of fishing gear (s 24), determination of total allowable catches (ss 26–34), declaration of share management fishery (ss 41–101), declaration of restricted fishery (ss 111–116), habitat protection plans (s 192), declaration of aquatic reserves (ss 194–197) and protection of marine vegetation (ss 204–205A).

**Division 3 Critical habitat of endangered species, populations and ecological communities and critically endangered species and ecological communities****220P Habitat eligible to be declared critical habitat**

- (1) The whole or any part of the habitat of an endangered species, population or ecological community or critically endangered species or ecological community that is critical to the survival of the species, population or ecological community is eligible to be declared under this Division to be the critical habitat of the species, population or ecological community.
- (2) The regulations may provide that a specified habitat, or habitat of a specified kind, may, or may not, be declared to be critical habitat for the purposes of this Division.

**Note.** For the purposes of this section, **habitat** means any area occupied, or periodically or occasionally occupied, by fish or marine vegetation (or both), and includes any biotic or abiotic component—see section 4.

**220Q Identification of critical habitat**

- (1) The Minister is to identify (where this is possible) the critical habitat of each endangered species, population and ecological community and each critically endangered species and ecological community.
- (2) The Minister must consult the Fisheries Scientific Committee about the identification of any such critical habitat and must not make a

preliminary identification until the Minister has considered the advice of the Committee on the matter.

**220R Publication of preliminary identification and consultation with other Ministers**

- (1) After making a preliminary identification of critical habitat, the Minister must:
  - (a) give details of the preliminary identification to the Fisheries Scientific Committee, and
  - (b) give a copy of the notice of the preliminary identification that is required to be published under section 284 to all affected persons, and
  - (c) give the public an opportunity to make submissions about the preliminary identification.

**Note.** Section 284 regulates the public consultation procedure. It requires copies of the preliminary identification to be publicly exhibited and a period of at least 30 days provided for public comment.

- (2) If a submission from a public authority indicates that the declaration of the area concerned as critical habitat is likely to affect the exercise of functions by the public authority, the Minister is to consult with the responsible Minister for the public authority before making a decision on the matter.
- (3) For the purposes of this Division, an *affected person* is any of the following persons who (to the knowledge of the Minister after the making of reasonable searches and inquiries) would be affected by the declaration of critical habitat:
  - (a) landholders (including public authorities who are landholders) of the land concerned,
  - (b) other public authorities known to the Minister to exercise relevant functions in relation to the land concerned,
  - (c) if the land concerned is subject to a mortgage, charge or positive covenant—the mortgagee, chargee or person entitled to the benefit of the covenant,
  - (d) holders of leases and other interests granted by the Crown over the land concerned.

**220S Matters to which Minister to have regard in declaring critical habitat**

- (1) Before deciding whether an area identified by the Minister should be declared critical habitat, the Minister must have regard to the following:
  - (a) the likely social and economic consequences of a declaration of the area as critical habitat,

- (b) without limiting paragraph (a), the likely consequences of a declaration of the area as critical habitat for landholders of, or other persons having an interest in, or in lawful uses of, the land concerned,
  - (c) the advice of the Fisheries Scientific Committee on the matter,
  - (d) any written submissions received by the Minister on or before the date specified for the receipt of public submissions about the preliminary identification of the area and, in particular, any submissions received from public authorities exercising relevant functions in relation to the area.
- (2) In so doing, the Minister must also consider whether, consistent with the principles of ecologically sustainable development, the area identified might be amended to avoid or lessen any adverse consequences of its declaration as critical habitat.

**220T Declaration of critical habitat by Minister**

- (1) The Minister may, by notification published in the Gazette, declare an area described in the notification to be the critical habitat of a specified endangered species, population or ecological community or critically endangered species or ecological community.  
**Editorial note.** For notification of critical habitat see Gazette No 237 of 29.11.2002, p 10137.
- (2) The Minister must not do so until the Minister has made a preliminary identification of the area as critical habitat and complied with the other requirements of this Division with respect to the declaration of that area as critical habitat.
- (3) The Minister may declare the area the subject of the preliminary identification to be critical habitat without amendment or with any amendments that the Minister considers appropriate.
- (4) The Minister may refuse to declare the area the subject of the preliminary identification to be critical habitat (on the basis of one or more of the factors referred to in section 220S or otherwise).
- (5) The Minister must make a decision on whether to declare a particular area as critical habitat within 6 months after the date specified for the receipt of public submissions about the preliminary identification of the area.
- (6) As soon as practicable after the declaration of critical habitat, the Minister must:
  - (a) give notice of the declaration to all affected persons, and

- (b) publish notice of the declaration in a newspaper circulating generally throughout the State and in a newspaper circulating generally in the area declared to be critical habitat.

**Note.** See section 220W for requirements with respect to the publication of a map of the critical habitat.

**220U Amendment or revocation of declaration of critical habitat**

- (1) The Minister may amend or revoke a declaration of critical habitat by a further notification published in the Gazette.
- (2) However, the Minister must not amend or revoke a declaration unless the Minister:
  - (a) has consulted the Fisheries Scientific Committee about the matter, and
  - (b) has given notice of the proposed amendment or revocation to affected persons and given the public an opportunity to make submissions as if it were a preliminary identification of critical habitat, and
  - (c) has had regard to the matters the Minister would be required to have regard to if it were a decision to declare critical habitat.
- (3) The Minister must give notice of the amendment or revocation to all affected persons as if it were a declaration of critical habitat.
- (4) The Minister must, in a notification amending or revoking a declaration of critical habitat and in a notice under subsection (3), give the reasons for the amendment or revocation of the declaration.

**220V Public authorities to have regard to critical habitat**

A public authority must have regard to the existence of critical habitat declared under this Division:

- (a) in relation to the use of any of the land concerned of which it is a landholder, or
- (b) in exercising its functions in relation to any of the land concerned.

**Note.** The *Environmental Planning and Assessment Act 1979* contains a number of significant provisions with respect to critical habitat (and also certain other habitat of threatened species, populations and ecological communities of fish and marine vegetation), including in connection with the preparation of environmental planning instruments, the granting of development consents and environmental assessment under Part 5 of that Act. Section 192 of this Act also enables habitat protection plans to be made for the protection of critical habitat.

**220W Maps of critical habitat**

- (1) Before any critical habitat is declared or any declaration of critical habitat is amended, the Minister must arrange for the preparation of a map that shows the location of the critical habitat proposed to be declared or amended.
- (2) A copy of the map is to be published in the Gazette and the description in a notification of the area declared to be critical habitat, or any amendment of that area, is to be provided by or by reference to that map.
- (3) The Minister must serve a copy of a map of critical habitat on the following:
  - (a) the Director-General of the Department of Land and Water Conservation,
  - (b) the Director-General of the Department of Urban Affairs and Planning,
  - (c) each local council within whose area the whole or part of the critical habitat is located,
  - (d) any other affected persons as the Minister considers appropriate.

**220X Minister to keep register of critical habitat**

- (1) The Minister must keep a register containing copies of declarations of critical habitat as in force from time to time, and maps of the critical habitat that are published in the Gazette.
- (2) The register is to be made available to public authorities.
- (3) The register is to be open for public inspection, without charge, during ordinary business hours, and copies of or extracts from the register are to be made available to the public on request, on payment of the fee fixed by the Minister.

**220Y Discretion not to disclose location of critical habitat**

- (1) Despite the other provisions of this Division, the Minister may decline to disclose the precise location of critical habitat (or proposed critical habitat) in accordance with this Division to the public or to any class of affected persons. This subsection extends to the notification of a preliminary identification of critical habitat, the declaration of critical habitat, any public or other notice of any such declaration, the service of a copy of any map or the keeping of any register under this Division.
- (2) The Minister may decline to disclose the precise location of critical habitat (or proposed critical habitat) only if the Minister is satisfied that:
  - (a) the disclosure would be likely to expose the habitat and the endangered species, population or ecological community or

- critically endangered species or ecological community that occupies it to a significant threat, and
  - (b) each landholder of land concerned agrees that the precise location should not be disclosed, and
  - (c) it is in the public interest that the precise location should not be disclosed.
- (3) This section does not prevent the Minister from disclosing the precise location of critical habitat (or proposed critical habitat) to particular persons, including:
- (a) landholders or other persons having an interest in, or in lawful uses of, the land, or
  - (b) public authorities exercising functions in relation to the land, or
  - (c) persons entitled by law to notice of the existence of interests in or proposals affecting the land.

**220Z Effect of failure to comply with procedural requirements**

A declaration of critical habitat (or any amendment or revocation of the declaration) is not open to challenge, because of a failure to comply with the procedural requirements of this Division, after notification of the declaration (or of the amendment or revocation) has been published in the Gazette.

**Division 4 Offences**

**220ZA Harming threatened species, populations or ecological communities**

A person must not harm any fish or marine vegetation of a threatened species, population or ecological community.

Maximum penalty:

- (a) in the case of any endangered species, population or ecological community—2,000 penalty units or imprisonment for 2 years, or both, or
- (b) in the case of any vulnerable species—500 penalty units or imprisonment for 1 year, or both.

**220ZB Buying, selling or possessing threatened species**

- (1) A person must not, by an act or omission, do anything that causes damage to any critical habitat.  
Maximum penalty: 2,000 penalty units or imprisonment for 2 years, or both.
- (2) If a map of the critical habitat has been duly published in the Gazette, it is not necessary for the prosecution to prove that the person knew that the habitat was declared as critical habitat or that the accused knew that it was the habitat of an endangered species, population or ecological community.
- (3) It is a defence to a prosecution for an offence against this section in relation to an area of critical habitat that the Minister has declined to disclose its precise location under section 220Y and that the accused did not know and could not reasonably be expected to have known that the area was critical habitat.

**220ZD Damage to habitat of threatened species, population or ecological community**

- (1) A person must not, by an act or omission, do anything that causes damage to any habitat (other than critical habitat) of a threatened species, population or ecological community if the person knows that the area concerned is habitat of that kind.  
Maximum penalty: 1,000 penalty units or imprisonment for 1 year, or both.
- (2) In proceedings for an offence under this section in respect of an act or an omission of a person that causes damage to any habitat (other than critical habitat) of a threatened species, population or ecological community, it is to be conclusively presumed that the person knew that the land concerned was habitat of that kind if it is established that:
  - (a) the act or omission occurred in the course of the carrying out of development or an activity for which development consent under Part 4 of the *Environmental Planning and Assessment Act 1979*,

---

or an approval to which Part 5 of that Act applies, was required but not obtained, or

- (b) the act or omission constituted a failure to comply with any such development consent or approval.

**220ZE Regulations may prohibit certain actions**

- (1) The regulations may prohibit or regulate, for the purposes of this Part, the carrying out of specified actions, or actions of a specified class or description:
- (a) in specified waters, or
  - (b) within a prescribed distance of any fish or marine vegetation of a threatened species, or
  - (c) within a prescribed distance of the habitat of any fish or marine vegetation of a threatened species, or
  - (d) on specified critical habitat.
- (2) Any such regulation may create an offence punishable by a penalty not exceeding 100 penalty units.

**220ZF Defences**

- (1) It is defence to a prosecution for an offence against this Division if the accused proves that the act or omission constituting the offence:
- (a) was authorised by, and was done or omitted in accordance with:
    - (i) a licence granted under this Part, or
    - (ii) a Ministerial order or interim order made under Subdivision 1A of Division 6, or
    - (iii) a permit under section 37, or
    - (iv) an aquaculture permit, or
  - (b) was essential for the carrying out of:
    - (i) development in accordance with a development consent within the meaning of the *Environmental Planning and Assessment Act 1979*, or
    - (ii) an activity, whether by a determining authority or pursuant to an approval of a determining authority within the meaning of Part 5 of that Act, if the determining authority has complied with that Part, or
    - (iii) a project approved under Part 3A of the *Environmental Planning and Assessment Act 1979*, or
    - (iv) State significant infrastructure approved under Part 5.1 of the *Environmental Planning and Assessment Act 1979*, or

- 
- (b1) was authorised by a property vegetation plan approved under the *Native Vegetation Act 2003*, being an act that had the benefit of biodiversity certification of the native vegetation reform package under Division 10 when the plan was approved, or
  - (c) was authorised by or under the *State Emergency and Rescue Management Act 1989* and was reasonably necessary in order to avoid a threat to life or property, or
  - (d) was a routine fishing activity (unless it was an activity of a kind that the regulations declare is not a routine fishing activity for the purposes of this paragraph), or

- (3) If the Director-General determines that an action proposed by an applicant for a licence is likely to significantly affect threatened species, populations or ecological communities, or their habitats, the Director-General must notify the applicant that, if the application is to proceed, a species impact statement prepared in accordance with Subdivision 2 must be provided.
- (4) If the Director-General determines that an action proposed is not likely to significantly affect threatened species, populations or ecological communities, or their habitats, a licence under this Part is not required and the Director-General must, as soon as practicable after making the determination, issue to the applicant a certificate to that effect.

**Note.** An action that is not required to be licensed under this Part may however be required to be authorised by other provisions of this Act or may otherwise constitute an offence under this Act.

**221D Conditions and restrictions to licence**

- (1) Without limiting section 221B (1) (a), the Director-General may grant an application for a licence subject to a condition that the applicant:
  - (a) make specified modifications to the action proposed, whether in relation to the area of land proposed to be affected or otherwise, or

**221ZG Biodiversity certification of native vegetation reform package**

- (1) The Minister may by order published in the Gazette confer biodiversity certification on the native vegetation reform package for the purposes of this Part.
- (2) The Minister may confer biodiversity certification even if the native vegetation reform package does not comprise all the elements of the package.
- (3) The Minister may, by order published in the Gazette, suspend biodiversity certification of the native vegetation reform package if the composition of the package changes after its certification (for instance by any amendment of the *Native Vegetation Act 2003* or regulations under that Act, or by the approval or amendment of a State-wide standard or target or of a catchment action plan). The Minister may by order published in the Gazette lift any suspension under this subsection.

- 
- (4) The Minister may, in an order conferring biodiversity certification or in another order published in the Gazette, exclude from the certification of the native vegetation reform package any specified class of activity.
  - (5) In deciding on any action under this section, the Minister is to have regard to the likely impact of the native vegetation reform package (or any relevant aspect of its operation) on the achievement of the objects of this Part.

**221ZH Effect of biodiversity certification**

While biodiversity certification of the native vegetation reform package is in force, any activity on land within the area of operations of each catchment management authority has the benefit of that biodiversity certification (except any activity excluded from certification under section 221ZG (4)).

**Note.** Biodiversity certification has the following effects:

- (a) the clearing of native vegetation as authorised by a property vegetation plan that is approved while the clearing has the benefit of biodiversity certification is a defence to a prosecution for certain offences under Part 8A of the NPW Act, and
- (b) development consent to clearing of native vegetation that has the benefit of biodiversity certification does not require the preparation of a species impact statement or consultation between Ministers. (See section 14 (4) of the *Native Vegetation Act 2003*.)

**221ZI Suspension of certification in connection with implementation of package**

- (1) The Minister may by order published in the Gazette suspend biodiversity certification of the native vegetation reform package in its application to a particular catchment management authority if the Minister is of the opinion that the catchment management authority:
  - (a) has failed to properly exercise its functions under the native vegetation reform package, or
  - (b) has otherwise failed to exercise its functions in a manner that promotes the conservation of threatened species, populations and ecological communities.
- (2) During the suspension of biodiversity certification of the native vegetation reform package in its application to a particular catchment management authority, land within the area of operations of the catchment management authority does not have the benefit of the biodiversity certification of the native vegetation reform package.
- (3) The Minister is only entitled to form an opinion for the purposes of this section:
  - (a) based on the outcomes of any audit undertaken by the NRC, or

- 
- (b) based on the results of an investigation conducted by the Director-General, or
  - (c) in such other circumstances as may be prescribed by the regulations.

**221ZJ Notification of certification, variation or suspension**

- (1) Notice of the grant of biodiversity certification under this Division or of any suspension of that certification under this Division is to be given within 14 days:
  - (a) to the Director-General of the Department of Infrastructure, Planning and Natural Resources, and
  - (b) on the website of the Department.
- (2) The Minister is to keep a register containing copies of each notice of the grant of biodiversity certification under this Division and of any suspension or revocation of that certification.
- (3) The register is to be open for public inspection, without charge, during ordinary business hours, and copies of or extracts from the register are to be made available to the public on request, on payment of the fee fixed by the Minister.

**Division 11 Biodiversity certification of environmental planning instruments**

**221ZK Biodiversity certification**

- (1) The Minister may by order published in the Gazette confer biodiversity certification on an EPI if satisfied that the EPI, in addition to any other relevant measures to be taken, will lead to the overall improvement or maintenance of biodiversity values. Biodiversity values include threatened species, populations and ecological communities and their habitats.
- (2) In deciding whether to confer biodiversity certification on an EPI the Minister must also have regard to the following considerations:
  - (a) the likely social and economic consequences of implementation of the EPI,
  - (b) the most efficient and effective use of available resources for the conservation of threatened species, populations and ecological communities,
  - (c) the principles of ecologically sustainable development,
  - (d) conservation outcomes resulting from any reservation or proposed reservation of land under Part 4 of the NPW Act or the entering into of a conservation agreement relating to the land

- 
- under that Act, or resulting from any other action to secure the protection of land for conservation purposes,
- (e) conservation outcomes resulting from the operation outside the area of operation of the EPI of strategies, plans, agreements and other instruments (whether or not they are EPIs).
- (3) In deciding any matter under this section the Minister is to have regard to the objects of this Part.
  - (4) An EPI cannot be biodiversity certified unless:
    - (a) notice is given of proposed biodiversity certification of the EPI in the course of the community consultation of the proposed EPI under Part 3 of the *Environmental Planning and Assessment Act 1979* or by public exhibition following a procedure that substantially accords with the procedure for public exhibition required by that Part, and
    - (b) copies of submissions made in response to an invitation for submissions in the course of that public exhibition have been provided to the Minister.
  - (5) The Minister may issue guidelines for the purpose of assisting in the preparation of EPIs for biodiversity certification.

**221ZL Certification can be conditional**

- (1) Biodiversity certification of an EPI can be subject to conditions, including conditions that limit the certification to specified threatened species, populations and communities or to a specified part of the land to which the EPI applies.
- (2) Unless limited by the conditions of certification, biodiversity certification of an EPI applies to the whole of the land to which the EPI applies, and to all threatened species, populations and ecological communities.

**221ZM Effect of biodiversity certification**

- (1) Any development for which development consent is required under the provisions of a biodiversity certified EPI is, for the purposes of Part 4 of the *Environmental Planning and Assessment Act 1979* taken to be development that is not likely to significantly affect any threatened species, population or ecological community, or its habitat.
- (2) An activity to which Part 5 of the *Environmental Planning and Assessment Act 1979* applies that a biodiversity certified EPI provides can be carried out without the need for development consent is, for the purposes of that Part, taken to be an activity that is not likely to

---

significantly affect any threatened species, population or ecological community, or its habitat.

- (3) This section applies only to development or an activity on land to which the certification of the EPI applies and only to threatened species, populations or ecological communities (and their habitat) to which the certification applies.

**221ZN Period of certification and extension**

- (1) Biodiversity certification of an EPI remains in force for such period as the Minister determines and specifies in the certification. If no period is specified, biodiversity certification remains in force for 10 years.
- (2) Prior to the expiration of biodiversity certification of an EPI, the Minister may by order published in the Gazette extend by a period of up to 10 years the period for which that certification remains in force, but only if the Minister has reviewed the EPI to take account of any new listing of a species, population or ecological community or the discovery of a species, population or ecological community not previously known in an area.
- (3) The Minister must not extend the period of biodiversity certification of an EPI unless, prior to granting the extension, the Minister:
- (a) by notice published in a newspaper circulating generally throughout the State, invites persons to make written submissions to the Minister on the proposed extension, and
  - (b) considers any written submissions received before the closing date specified in the notice for the making of submissions (being a date that is not less than 30 days after the date the notice is first published under this subsection).
- (4) This section does not prevent further biodiversity certification of an EPI under this Division.

**221ZO Reassessment of biodiversity certification**

- (1) The Minister is to reassess the grant of biodiversity certification in respect of an EPI following any review of the EPI under the *Environmental Planning and Assessment Act 1979*, or any rezoning of land to which the EPI applies, to determine whether biodiversity certification should be maintained or modified.
- (2) If a local council undertakes a review of a biodiversity certified EPI that applies to land in its area, the council is to notify the Minister of the commencement of that review, and the outcome of that review, as soon as practicable.

---

**221ZP Suspension and revocation of certification**

The Minister may by order published in the Gazette suspend or revoke the certification of an EPI if the Minister is of the opinion that:

- (a) the EPI fails (or will, as a result of any proposed amendment of the EPI, fail) to make appropriate provision for the conservation of threatened species, populations and ecological communities, or
- (b) the consent authority under the EPI has failed to adequately comply with a direction by the Minister to review the EPI in response to any new listing of a species, population or ecological community or the discovery of a species, population or ecological community not previously known in an area.

**221ZQ Notification of certification, suspension or revocation**

- (1) Notice of the grant of biodiversity certification under this Division or of the extension, suspension or revocation of that certification is to be given within 21 days:
  - (a) to the Director-General of the Department of Infrastructure, Planning and Natural Resources, and
  - (b) on the website of the Department, and
  - (c) to each local council that is the council of an area of which land to which the EPI applies forms part.
- (2) The Minister is to keep a register containing copies of each notice of the grant of biodiversity certification under this Division and of any extension, suspension or revocation of that certification.
- (3) The register is to be open for public inspection, without charge, during ordinary business hours, and copies of or extracts from the register are to be made available to the public on request, on payment of the fee fixed by the Minister.

**221ZR Concurrence can be conditional on voluntary conservation action**

- (1) The Director-General may grant concurrence under section 79B or 112C of the *Environmental Planning and Assessment Act 1979* conditional on the taking of specified action (**voluntary action**, as provided by subsection (2)) that the Director-General considers will significantly benefit threatened species conservation, but only if the Director-General is satisfied that the person who proposes to carry out the development or activity to which the concurrence relates has agreed to take the voluntary action and agrees to the imposition of the condition.

- 
- (2) The voluntary action that can be required by a condition imposed under this section is any one or more of the following:
    - (a) the reservation of land under Part 4 of the NPW Act or the entering into of a conservation agreement relating to the land under that Act,
    - (b) action to secure the protection of land for conservation purposes by a method that the Director-General considers satisfactory,
    - (c) action to restore threatened species habitat on land referred to in paragraph (a) or (b),
    - (d) the contribution of money for a purpose referred to in paragraph (a)–(c).
  - (3) In determining whether to confer biodiversity certification on an EPI, the Minister is entitled to have regard to the conservation benefits that will result from the taking of action in accordance with a condition proposed to be imposed under this section (as if those benefits would result from the implementation of the EPI).
  - (4) When such a condition is imposed as a condition of concurrence in respect of development, the consent authority for the development must also impose the condition on its consent for the development.
  - (5) The annual report of the Department is to include an assessment of how any voluntary action taken pursuant to a condition imposed under this section has benefited or is likely to benefit the adversely affected threatened species, including details of how any land or money contributed pursuant to such a condition has benefited or is likely to benefit threatened species.

**221ZS Director-General may accredit persons to prepare assessments and surveys**

- (1) The Director-General is to institute arrangements for the accreditation of suitably qualified and experienced persons to undertake and prepare surveys and assessments for use in connection with:
  - (a) biodiversity certification of EPIs under this Division, or
  - (b) any assessment of the matters referred to in section 5A (Significant effect on threatened species, populations or ecological communities, or their habitats) of the *Environmental Planning and Assessment Act 1979*.
- (2) An applicant for accreditation must furnish the Director-General with such information as the Director-General requires to effectively determine the application and the application must be accompanied by the fee fixed by the Director-General for the consideration of the application.

- 
- (3) An accreditation is to be for the period (not exceeding 3 years) specified by the Director-General in the instrument of accreditation, and the accreditation (or any renewal of it) may be given subject to the conditions and restrictions (if any) specified in the instrument of accreditation.
  - (4) Without limiting subsection (3), an accreditation is to include conditions that require surveys and assessments to be undertaken and prepared in accordance with standards approved from time to time by the Director-General by order published in the Gazette.
  - (5) The Director-General may vary conditions or restrictions (if any) attaching to an accreditation and may suspend or cancel an accreditation.

- (3) To the extent that a provision referred to in subclause (1) takes effect from a date that is earlier than its date of publication in the Gazette, the provision does not operate:

- 
- (a) to affect, in a manner prejudicial to any person (other than the State or an authority of the State), the rights of the person existing before the date of publication, or
  - (b) to impose liabilities on any person (other than the State or an authority of the State) in respect of anything done or omitted to be done before the date of publication.

### **Part 3 Provisions relating to fishing closures etc**

#### **3 Saving of existing fishing closures under sec 18 of 1935 Act**

- (1) A notification made under section 18 of the 1935 Act and in force immediately before the repeal of that section by this Act is taken to be a notification of a fishing closure under Division 1 of Part 2 of this Act.
- (2) Any such fishing closure remains in force, subject to this Act, for the balance of the period of the notification under section 18 of the 1935 Act or for the period of 5 years from the commencement of Division 1 of Part 2 of this Act, whichever is the shorter.

#### **4 Saving of existing net fishing closure under section 19 of 1935 Act (Brisbane Waters, Port Hacking etc)**

- (1) The prohibitions contained in section 19 of the 1935 Act immediately before the repeal of that section by this Act are taken to be a fishing closure under Division 1 of Part 2 of this Act in the terms set out in that section.
- (2) That fishing closure does not expire and may not be amended or revoked by a further fishing closure under Division 1 of Part 2 of this Act.
- (3) The regulations may prohibit or regulate net fishing in waters to which that fishing closure applies and, in that case, may revoke that fishing closure.

#### **5 Saving of existing closures under section 21 of the 1935 Act (close seasons)**

On the repeal of section 21 of the 1935 Act, a fishing closure in the terms set out in that section is taken to have been notified under Division 1 of Part 2 of this Act. That closure expires, and may be amended or revoked, in accordance with that Division.

#### **6 Saving of existing scientific permits**

A permit issued under section 15 of the 1935 Act and in force immediately before the repeal of that section is taken to be a permit issued under section 37 of this Act.

**6A Payment of recreational freshwater fishing fee before extension to saltwater fishing**

- (1) A recreational freshwater fishing fee paid under Division 4A of Part 2 of this Act before the substitution of that Division by the *Fisheries Management and Environmental Assessment Legislation Amendment Act 2000* is taken to be a recreational fishing fee paid under that Division, as so substituted, for the balance of the period after that substitution for which the recreational freshwater fishing fee was paid.
- (2) The official receipt issued for the payment of the recreational freshwater fishing fee is taken to be an official receipt under that Division, as so substituted, for the balance of that period.

**6AA Continuation of fishing business determinations made before commencement**

- (1) Any determination made by the Director-General in respect of a fishing business that would have been validly made under section 34Q, had that section been in force at the time that it was made, is taken to have been made under that section and, accordingly, has effect as a fishing business determination.
- (2) The Director-General is not required to comply with section 34Q (8) in respect of such a determination if notice of the determination has already been given to the person or persons who, at the time of the determination, owned the business the subject of the determination.
- (3) Any number allocated to a fishing business pursuant to such a determination is taken to have been allocated under section 34R.

**6AB Changes to maximum penalties**

An amendment made to this Act by the *Fisheries Management Amendment Act 2009* that provides for an increased maximum penalty for a second or subsequent offence against this Act applies to a second or subsequent offence that occurs after that amendment (including in a case where the previous offence occurred before the amendment).

**Part 3A Provisions relating to share management fisheries****6B Appeals to Share Appeal Panel in relation to restricted fishery determinations**

- (1) If a share management fishery referred to in Schedule 1 (as in force immediately after its amendment by the *Fisheries Management Amendment Act 2006*) was a restricted fishery, or any part of such a share management fishery was a restricted fishery, when shares in the

---

fishery were provisionally issued, there is no appeal to the Share Appeal Panel in relation to determinations made under this Act in connection with that restricted fishery, if there was an opportunity for the person in respect of whom the determination was made to apply for an internal review of the determination after the determination was made.

- (2) The Share Appeal Panel is to refuse to hear an appeal in relation to any such determination.
- (3) In particular, this clause applies to the following determinations:
  - (a) a determination as to the person's eligibility for an endorsement on a commercial fishing licence that would authorise the person to take fish for sale in the restricted fishery,
  - (b) a determination as to the catch history of the person, or the catch history of the person's fishing business, made in connection with a determination as to eligibility for such an endorsement.
- (4) This clause applies in respect of any appeal by an applicant for shares in a share management fishery even if that applicant is not the person in respect of whom the earlier determination was made (for example, because the person acquired the relevant fishing business after the determination was made).
- (5) This clause extends to the following:
  - (a) a share management fishery in which shares were provisionally issued before the commencement of this clause,
  - (b) an appeal made to the Share Appeal Panel before the commencement of this clause, if the Share Appeal Panel has not commenced to hear the appeal.
- (6) In this clause:

**internal review** means review by the Minister or by an officer or officers of the Department (whether conducted exclusively by officers of the Department or in conjunction with persons not employed within the Department), including the review provided for by Division 6 of Part 8 of the *Fisheries Management (General) Regulation 1995* before its repeal.

**Note.** Division 6 of Part 8 of the *Fisheries Management (General) Regulation 1995*, now repealed, provided a procedure for the review of certain decisions made in respect of some of the fisheries set out in Schedule 1 when they were restricted fisheries.

#### **6C Entitlement to shares—new category 1 share management fisheries**

- (1) This clause applies in respect of the following share management fisheries, as described in Schedule 1:
  - (a) the ocean trawl fishery,

- 
- (b) the ocean hauling fishery,
  - (c) the ocean trap and line fishery,
  - (d) the estuary general fishery,
  - (e) the estuary prawn trawl fishery.
- (2) If the Minister is satisfied, in relation to a restricted fishery that becomes a share management fishery, that a person would have been entitled to an endorsement in the restricted fishery (otherwise than as the nominee or employee of another person) had the person applied for an endorsement before that fishery ceased to be a restricted fishery, the person is taken, for the purposes of section 50 (4), to have been entitled to take fish for sale in the fishery immediately before it ceased to be a restricted fishery.
- (3) The allocation of shares in the share management fishery to any such person is to be made having regard to what the Minister considers the entitlements of the person would have been had the person applied for an endorsement.
- (4) This clause ceases to apply in relation to a share management fishery when one of the following occurs (whichever happens first):
- (a) the management plan for the fishery commences,
  - (b) all appeals to the Share Appeal Panel in connection with the issue of shares in the share management fishery are disposed of,
  - (c) the period of 12 months from the commencement of this clause elapses.
- (5) In this clause:
- endorsement** means an endorsement on a commercial fishing licence that authorises a person to take fish for sale in a restricted fishery.

**6D Continuation of rental charge for access to new category 1 share management fisheries**

- (1) Section 77A is taken to apply in respect of each of the following share management fisheries, as described in Schedule 1, as if the fishery were a category 2 share management fishery:
- (a) the ocean trawl fishery,
  - (b) the ocean hauling fishery,
  - (c) the ocean trap and line fishery,
  - (d) the estuary general fishery,
  - (e) the estuary prawn trawl fishery.

- 
- (2) A shareholder in such a fishery (within the extended meaning of that expression given by section 77A (8)) is required to pay the rental charge provided for by that section on and from 27 March 2004.
- (2A) A shareholder in a fishery (within the extended meaning of that expression given by section 77A (8)) is not required to pay a rental charge under section 77A in respect of any period that is after the beginning of the first period for which a community contribution for right of access to the fishery is payable under the management plan for the fishery.
- (3) For avoidance of doubt, a person is not required to pay a rental charge under section 77A (as applied by this clause) because the person is authorised to take fish, or to nominate a person to take fish, in the southern region of the ocean fish trawl restricted fishery.
- (4) Section 45E does not apply to a fishery to which this clause applies.
- (5) This clause has effect as if it had commenced on 27 March 2004.
- (6) In this clause:  
***ocean fish trawl restricted fishery*** means the restricted fishery of that name declared by regulations under section 111.  
***southern region*** of the ocean fish trawl restricted fishery means that part of the fishery that is comprised of the use of an otter trawl net (fish) to take fish from ocean waters that are not more than 3 nautical miles from the natural coast line and are south of a line drawn due east from Barrenjoey Headland.  
**Note.** Under section 77A a rental charge is payable for access to a category 2 share management fishery. On 27 March 2004 various category 2 share management fisheries were converted to category 1 share management fisheries. A new category 1 share management fishery called the ocean trawl fishery was also created. It is an amalgamation of the ocean prawn trawl fishery and part of the ocean fish trawl fishery. All the new category 1 fisheries are restricted fisheries in respect of which a rental charge was, before the changes, payable under section 77A. This clause continues the requirement to pay that rental charge until the commencement of the management plan for the fishery. (This clause does not apply in respect of the southern region of the ocean fish trawl restricted fishery because that part of the fishery has ceased to be a share management fishery.)

## 6E Validation

Anything done or omitted to be done, on or after 26 March 2004, in relation to a share management fishery that would have been validly done or omitted had the amendments made to this Act by the *Fisheries Management Amendment Act 2004* been in force at the time that the thing was done or omitted, is validated.

---

**6F Redefinition of ocean trawl fishery**

Section 44 (2) does not apply to the omission of the description of the ocean trawl fishery from Schedule 1 by the *Fisheries Management Amendment Act 2006*. That is, shares in the fishery are not cancelled as a consequence of the amendments made to Schedule 1 by that Act but continue to have effect in respect of the fishery (as redefined by the amendments).

**6G Application of amendments made by Fisheries Management Amendment Act 2006**

- (1) Section 68 (4B), as inserted by the *Fisheries Management Amendment Act 2006*, applies only to endorsements given after the commencement of that subsection.
- (2) The amendment made to section 69 (6) by the *Fisheries Management Amendment Act 2006* applies only to nominations made after the commencement of the amendments.
- (3) The amendment made to section 76 (1) by the *Fisheries Management Amendment Act 2006* does not affect the requirement to pay any management charge that became payable before the commencement of that amendment.

**Part 4 Provisions relating to commercial fishing licences, boat licences, restricted fisheries and fishing records**

**7 Continuation of existing commercial fishing licences**

A fishing licence issued to an individual under section 24C of the 1935 Act and in force immediately before the repeal of that section by this Act is taken to be a commercial fishing licence issued to that individual under this Act.

**8 Continuation of existing criteria for obtaining commercial fishing licences**

Until the regulations under this Act otherwise provide, a person who was eligible to be issued with a fishing licence under section 24C of the 1935 Act, immediately before the repeal of that section by this Act, is taken to be eligible to be issued with a commercial fishing licence under this Act.

---

**9 Continuation of existing fishing boat licences**

A boat licence under section 23 or 24 of the 1935 Act immediately before the repeal of that section by this Act is taken to be a fishing boat licence issued under this Act.

**10 Transitional provisions relating to existing restricted fisheries under section 22A of 1935 Act**

- (1) A fishery which was a declared restricted fishery under section 22A of the 1935 Act immediately before the repeal of that section by this Act is taken to be a restricted fishery declared under Division 3 of Part 4 of this Act until the declaration is revoked by a regulation under that Division or it otherwise ceases to be a restricted fishery in accordance with this Act.
- (2) The maximum number of restricted fishery permits fixed under that section immediately before the repeal of that section is taken to be the maximum number of commercial fishing licences that may be endorsed in respect of the restricted fishery concerned (subject to the regulations under that Division).
- (3) A restricted fishery permit issued under that section and in force immediately before the repeal of that section is taken to be an endorsement on the commercial fishing licence of the holder of the permit, conferring the same authority and subject to the same conditions as the permit.
