Customer ID: **6016478**
Certificate: **23-A-0793**
Site: 001
Malinda King

Type: ROUTINE INSPECTION
Date: 11-JAN-2024

3.31(a)(1)

Sanitation.

There were accumulations of feces and dirty bedding in at least four adult guinea pig enclosures. These four enclosures were last cleaned over a week ago. Accumulations of feces and dirty bedding can expose the guinea pigs to disease hazards such as bacterial and fungal disease. Licensee must ensure that the enclosures are cleaned often enough to prevent accumulations of excreta and dirty bedding, and that enclosures are sanitized at least once every two weeks. Correct by January 12, 2024.

This inspection and exit interview were conducted with the licensee.
